Subject: 20220822 A90 Laurencekirk - Speed Limits on A937

Hi [Redacted],

I hope that you are well.

We have talked about potential speed limits on the A937 realignment through the grade-separated junction in the past and we would now like to discuss further please. This is needed to better develop the scheme in any case but particularly as part of a review of proposed provision for NMUs and the latest requirements of Cycling by Design 2021.

Would you be available for a Teams call to discuss please and, if so, when might suit?

Regards,

Subject: 20221122 A90 Laurencekirk - Minutes of Speed Limits meeting on 25 August 2022

Hi [Redacted],

I hope that you are well.

I also hope that your memory is good because, with apologies for the time elapsed, please find attached the Minutes from our meeting back on 25 August 2022 regarding speed limits on Aberdeenshire roads within the proposed scheme.

I would be grateful if you would indicate that the Minutes are a true record of the meeting or otherwise inform me of any amendments that you would wish.

Are you able to confirm that reduction of the footway buffer zone to 1m wide would not require an application to the Council for Departure from Standard?

Any queries just let me know.

Regards,

[Redacted]

[Redacted],

I hope that you are well.

Sorry for the delay with this – no reason other than too many things to do and not enough time.

Please find attached the Minutes of the Partnership meetings to date. If you think that I've missed any just let me know.

Regarding the change from 2m buffer to 1m buffer between shared footway and carriageway, any word on whether this would be regarded as a Departure from Standard and if so whether it would be likely to be approved?

Thanks.

Hi [Redacted]

Sorry for delay in coming back to you!

Just double checking with colleagues that I did not 'mispeak' and should be able to respond next week!

As an aside, I have been trying to put our files in order and I seem to have mislaid or rather I think [Redacted] left without filing, the minutes of the partnership meetings going back to whenever they started. Do you think it would be possible to re-send me a copy of all the minutes from our Partnership Meetings?

Many thanks indeed.

Kind regards

Hi [Redacted]!

Many thanks delay is not a problem for me, totally understand!

I will chase up a definitive answer on the departures issue and come back to you, next week.

I wonder – as again I can't find a note of it in my records – do you have a note of the meeting had between ourselves/roads colleagues and yourslevs on 15/11/18 which is referred to in the note of 2/11/18 partnership meeting? Thank you!

Hi [Redacted]!

I admit defeat and my own disorganised-ness – I can't find the plan which we were discussing re speed limits and departure from standards (possibly) for the footway-cycle track from the junction to Laurencekirk, would you mind obliging me again I have found the minutes of our discussion but not a plan and that would be helpful in explaining to colleagues.

Kind regards

Subject: RE: A90 Laurencekirk - Minutes of meeting of 25 August 2022 - Shared footway alteration?

Good morning [Redacted],

I hope that you are well.

Sorry for the delayed response but please now find attached a drawing that shows the pre 2021 design with AbC shared footway arrangement (2m buffer and 3m shared surface) and the proposed alteration to better accord with 2021 Cycling by Design (1m buffer and 4m shared surface). We would be grateful if you would consult with your standards team and let us know if the proposed alteration is acceptable and whether a formal application to AbC for departure from standard is required?

I'm looking for a favour on another matter too please? – could you consult with or point me to the AbC access officer to confirm whether the route through the [Redacted] accommodation underpass beneath the A90 is a recognised public right of way? – we are aware of the core path that leads from Frain Drive (where the primary school is) and goes part way towards the underpass before turning left and connecting to the B9120 from behind the cemetery at the centre junction with the A90 - but is the continuation of the farm track through the underpass a public right of way?

I would be happy to do a Teams call on either or both matters above.

Your assistance as usual would be much appreciated.

Regards,

Subject: A90/A937 Laurencekirk Junction Improvement Scheme - public right of way query

Hi [Redacted],

Sorry for the "cold call" but I asked for [Redacted] assistance to help me contact the best person with a query we have about potential public right of way near Laurencekirk and he gave me your name.

I am the project lead for Amey Consulting on behalf of Transport Scotland for the scheme and the query is in relation to a track adjacent to scheme proposals.

I wonder if you would be willing to do a quick Teams call with me since this would be the easiest way to explain the query? If so, when might suit?

Your assistance would be appreciated.

Thanks.

Hi [Redacted],

I apologise for the late response.

Our records show that there is no Right of Way present in the location shown in the attached map. However, this does not mean that there may not be one.

A public right of way can be claimed to exist where the route satisfies all of the following conditions. It must:

- connect two public places
- follow a more or less defined route
- have been used by the public as of right
- have been so used without substantial and effective interruption for at least 20 years.

There is an existing core path, indicated in purple on the attached map. This core path is privately owned and not maintained by Aberdeenshire Council.

I hope the above is of assistance.

Kind regards,
[Redacted]

Subject: A90 Laurencekirk Junction - Traffic Surveys

Hi [Redacted],

Sorry to bother you. I understand [Redacted] used to contact you on certain matters or general consultation with the council regarding the junction improvement.

We are placing traffic flow survey equipment at 3 locations;

- A90 / Oatyhill junction;
- A90 underpass at [Redacted] ([Redacted]); and
- Denlethen / Oatyhill bridge junction.

The surveys will collect traffic, walking and cycling data at the above locations to provide additional information on the operation of Oatyhill Junction and the Frain Drive underpass.

I am looking to notify the relevant person within the council, not sure if this falls under your area or responsibility and apologies if it doesn't. If not, would you be able to let me know who to contact please?

Thanks,

[Redacted]
