

# Free Personal And Nursing Care, Scotland, 2009-10

Published: 30 August 2011  
ISBN: 978-1-78045-363-7

## 1. Introduction

This Statistics Release presents the latest figures for free personal care (FPC) and free nursing care (FNC). The figures presented differ slightly from previous publications due to corrections being submitted during the validation process. Free personal and nursing care (FPNC) was introduced in Scotland on 1 July 2002. Prior to 1 July 2002, people could be charged for personal care services provided in their own home and many residents in Care Homes had to fully fund their care from their own income and savings.

### Care at home:

- people aged 65 and over can no longer be charged for personal care services provided in their own home. They can however be charged for domestic services such as help with shopping or housework but any charge would be subject to a financial assessment.

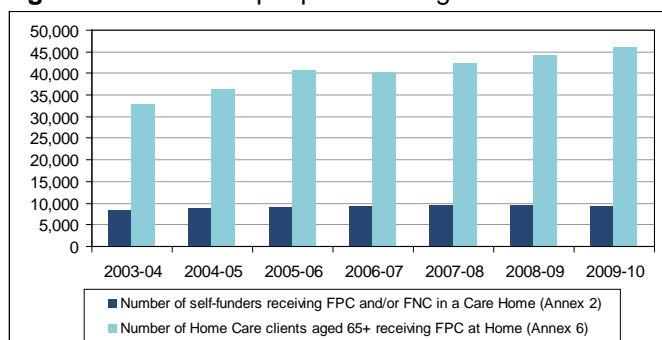

### Care Homes:

- people aged 65 or over who live in care homes and are assessed as self-funders can receive a weekly payment towards their personal care. This weekly FPC payment was set at £145 from 1 July 2002, rising to £149 from 1 April 2008 and £153 from 1 April 2009.
- People of all ages who live in care homes and are assessed as self-funders can receive a further payment if they require nursing care. This weekly FNC payment was set at £65 from 1 July 2002, rising to £67 from 1 April 2008 and £69 from the 1 April 2009.
- the remainder of the care homes fees – the ‘hotel’ costs - they still fund themselves.

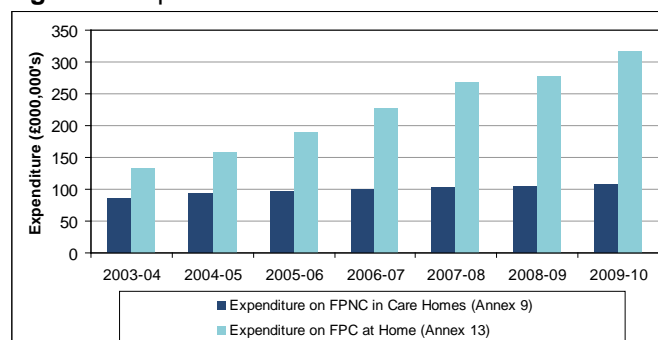

This release presents information from a variety of sources to give a picture of:

- the number of people benefiting from free personal care and free nursing care in Scotland, and
- how much Local Authorities spend on personal care services

**Figure 1: Number of people receiving FPNC**

**Figure 2: Expenditure on FPNC**

## 2. Main points

### Care Homes

- The overall number of older people in care homes has reduced slightly over the years since the Free Personal and Nursing Care policy was introduced, from nearly 32 thousand people in 2003-04 to just under 31 thousand people in 2010-11.
- The number of people in Scotland receiving Free Personal Care and/or Free Nursing Care (FPNC) payments to help pay their Care Home fees increased steadily in the first few years of the policy and in 2010-11 there were nearly 9,500 people receiving Free Personal Care payments. These payments are available to self-funding care home residents who have assets (including property) worth more than £23,500. Over the last 5 years to 2010-11, the number of people receiving Free Personal Care payments has levelled out at around 30 to 31 per cent of all older people in Care Homes.
- Around two-thirds of people receiving the Free Personal Care payments also receive the Free Nursing Care payment (just over 6,000 residents in 2010-11).
- The remaining 69 to 70 per cent of residents in care homes are publicly funded. These residents contribute to their care home fees from their pensions and any other income they may have and the local authority funds the balance which will be greater than the free personal and/or nursing care payments received by self-funding residents.

### Home Care

- The number of older people receiving personal care services in their own homes has increased each year from 33 thousand people in 2003-04 to over 46 thousand people in 2009-10 and 2010-11. Since July 2002, Local Authorities in Scotland can no longer charge for these services.
- This large increase in people receiving services in their own homes reflects an increasing older population and a move away from long-term care in hospital and care homes toward providing care in a person's own home for as long as possible.
- People receiving personal care services at home received on average nearly 7 hours of care each week in 2003-04. This has risen steadily to nearly 8 hours of care each week in 2010-11, showing that people receiving care at home have increasing levels of need.
- In 2009-10, 86 per cent of all older people receiving Home care services received personal care services as part of their package of care. This has increased each year since 2003-04 when only 57 per cent of clients received personal care.

### Expenditure

- The amount of money spent by Local Authorities on Free Personal care and Free Nursing Care (FPNC) payments to self-funding residents in Care Homes has increased each year from £86 million in 2003-04 to £108 million in 2009-10. This increase reflects the increasing number of self-funders up until 2008-09 and the annual increases in the FPNC payments from April 2008. All of this is new money arising from the FPNC policy.
- The amount of money spent by Local Authorities on providing personal care services to older people in their own homes has risen steadily each year from £133 million in 2003-04 to £318 million in 2009-10. This more than doubling of spend over the last 6 years reflects the fact that an increasing proportion of older people are cared for at home, rather than in hospital or care homes; that increasingly home care workers are providing personal care services rather than domestic services; and that people living at home have increasing levels of need. It should be noted that this is not all new spend arising from the FPNC policy, but prior to the policy Local Authorities could charge people for these services.

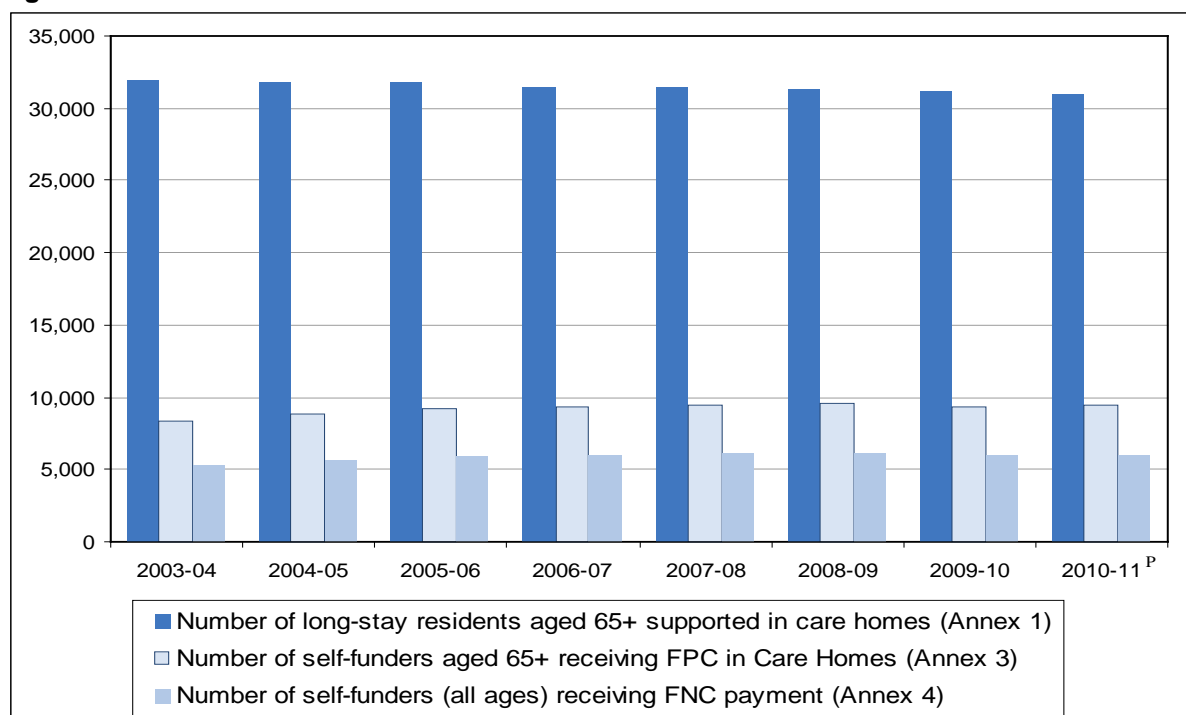

### 3. People receiving Free Personal Care and Free Nursing Care

This section presents the latest available data on people receiving free personal care and nursing care in a care home and people receiving free personal care at home. Where available provisional figures for 2010/11 have been provided, these figures have not been validated.

#### 3.1 Care Homes

Since 2002, the Scottish Executive has collected information on the number of residents aged 65+ supported by local authorities in care homes. These residents may be mainly funded by their local authority or may be a self-funder receiving the appropriate weekly payment towards their care homes fees. All of these residents receive personal care services for free.

**Figure 3:** Care Home residents

Proportion self-funders aged 65+ receiving FPC & FNC	63.1%	63.9%	64.2%	64.7%	64.5%	64.6%	64.1%	63.9%

Source: Community Care Quarterly Key Monitoring return.

<sup>1</sup>All figures are yearly averages rounded to the nearest 10.

<sup>P</sup> Provisional data

Table 1 shows that the average number of long-stay residents aged 65+ in care homes in Scotland reduced slightly since the introduction of free personal and nursing care. In 2003-04 there were 31,890 older people in care homes reducing to 31,230 in 2009-10. The provisional figures for 2010-11 suggest that this trend is continuing as the number of long-stay residents aged 65+ has reduced further by over 300 residents to 30,890.

In contrast, table 1 shows that the number of self-funding residents who receive the FPC payment for free personal care has increased each year from an average of 8,350 in 2003-04 to 9,570 in 2008-09. In 2009-10 there has been a decrease in the average to 9,330. The 2010-11 figures show an increase in the average number to 9,440 which is still less than the figure in 2008-09, although this is still an increase of 13.0 per cent from 2003-04.

The trend is the same for the proportion of long-stay residents who are self-funders. The proportion increased from 26.2 per cent 2003-04 to 30.6 per cent in 2008-09 and decreased to 29.9 per cent in 2009-10. The 2010-11 figure currently shows an increase back to 30.6 per cent.

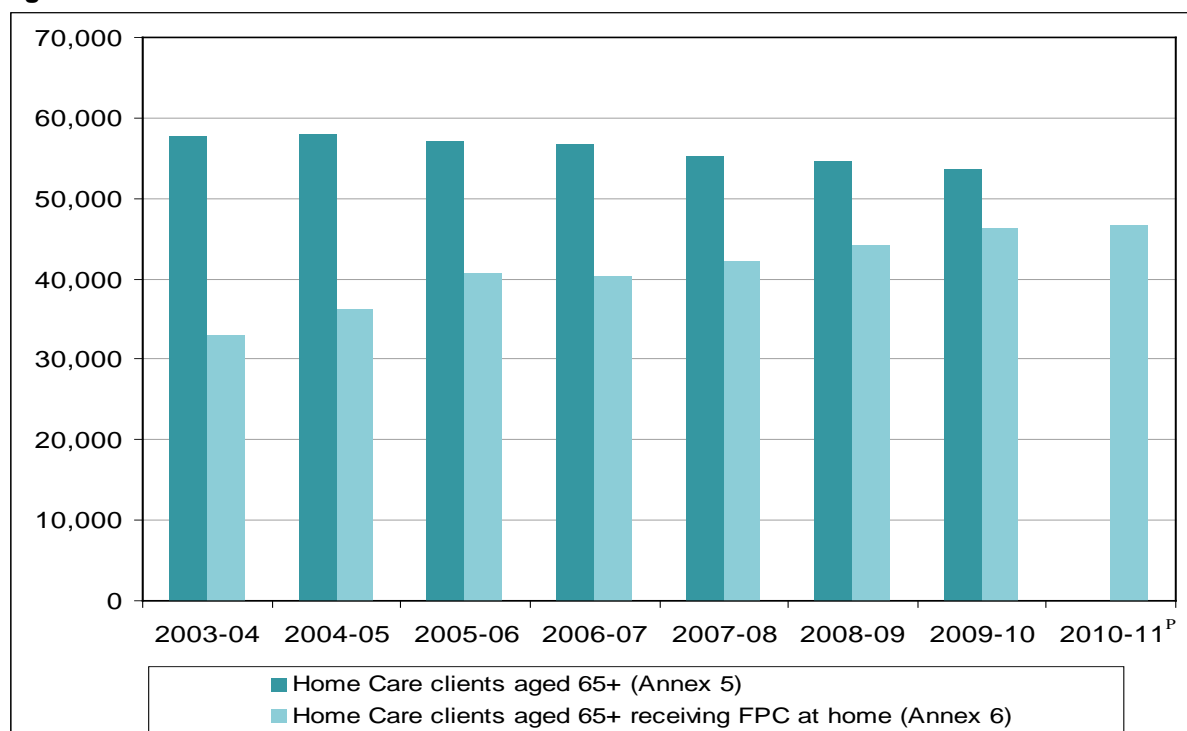

Around two-thirds of self-funding residents receive the FNC payment in addition to the FPC payment (£145 or £149 or £153). The number of self-funders receiving free nursing care has increased by 17.3 per cent from an average of 5,270 in 2003-04 to 6,180 in 2008-09. In 2009-10 there has been a decrease in the average to 5,980. The 2010-11 figures show an increase in the average number to 6,030 which is still less than the figure in 2008-09, although this is still an increase of 14.4 per cent from 2003-04.

A possible reason for the decreases shown in 2009-10 is the introduction of the National Eligibility Criteria and Waiting Times for the Personal and Nursing Care of Older People<sup>1</sup> during 2009-10.

### 3.2 Home Care

Prior to 1 July 2002, people aged 65 and over could be charged for personal care services provided in their own home. They can however be charged for domestic services such as help with shopping or housework but any charge would be subject to a financial assessment.

Source: Community Care Quarterly Key Monitoring Return, H1 Home Care return.

<sup>1</sup>All figures are rounded to the nearest 10, 2010-11 data not available at time of publication.

<sup>2</sup>All figures are average weekly hours (based on last week of each quarter) rounded to the nearest 100.

<sup>P</sup>Provisional data

Since the introduction of free personal care, the number of older people receiving home care services in Scotland increased from 57,760 in 2003-04 to 57,880 in 2004-05. In 2005-06, the numbers fell slightly to 57,190, followed by a further falls each year to 53,660 in 2009-10.

In contrast Table 2 shows for the same period the number of home care clients receiving personal care services has increased each year from 32,870 clients in 2003-04 to 46,260 in 2009-10, this is an increase of 40.7 per cent. The provisional figures available for 2010-11 show that this trend is continuing with a further increase of 500 clients to 46,760.

The number of hours of personal care provided has increased substantially from a weekly average of 226,000 hours in 2003-04 to 350,800 in 2009-10, this is an increase of 55.2 per cent. The provisional figures available for 2010-11 show that this trend is continuing with a further increase of over 19,000 hours to 370,000. The average hours provide each week has increased by one hour from 6.9 hours in 2003-04 to 7.9 hours in 2010-11.

Over the last eight years there has been a shift away from care homes towards more care being provided in peoples own homes. At the same time there has been an increase in the proportion of clients receiving personal care services. In 2003-04, 56.9 per cent of clients received personal care services. This has increased to 86.2 per cent in 2009-10. This increase is linked to the National indicator to [Increase the percentage of people aged 65 and over with high levels of care needs who are cared for at home](#).

The Scottish Executive publishes home care statistics annually. The latest figures, for 2010, are available from: <http://www.scotland.gov.uk/Topics/Statistics/Browse/Health/Publications>

## 4. Expenditure

This section presents the total expenditure on free personal and nursing care payments for the years 2003-04 to 2009-10, for clients in a Care Home or receiving a home care service.

Due to the identification that overheads were not being included consistently within expenditure figures by Local Authorities. The previously published time series for expenditure on free personal and nursing care payments for the years 2003-04 to 2008-09, has been revised following extensive work to ensure that all figures include overheads. Full details are given in the background notes and annex tables 14-17 present the expenditure figures with the overheads removed.

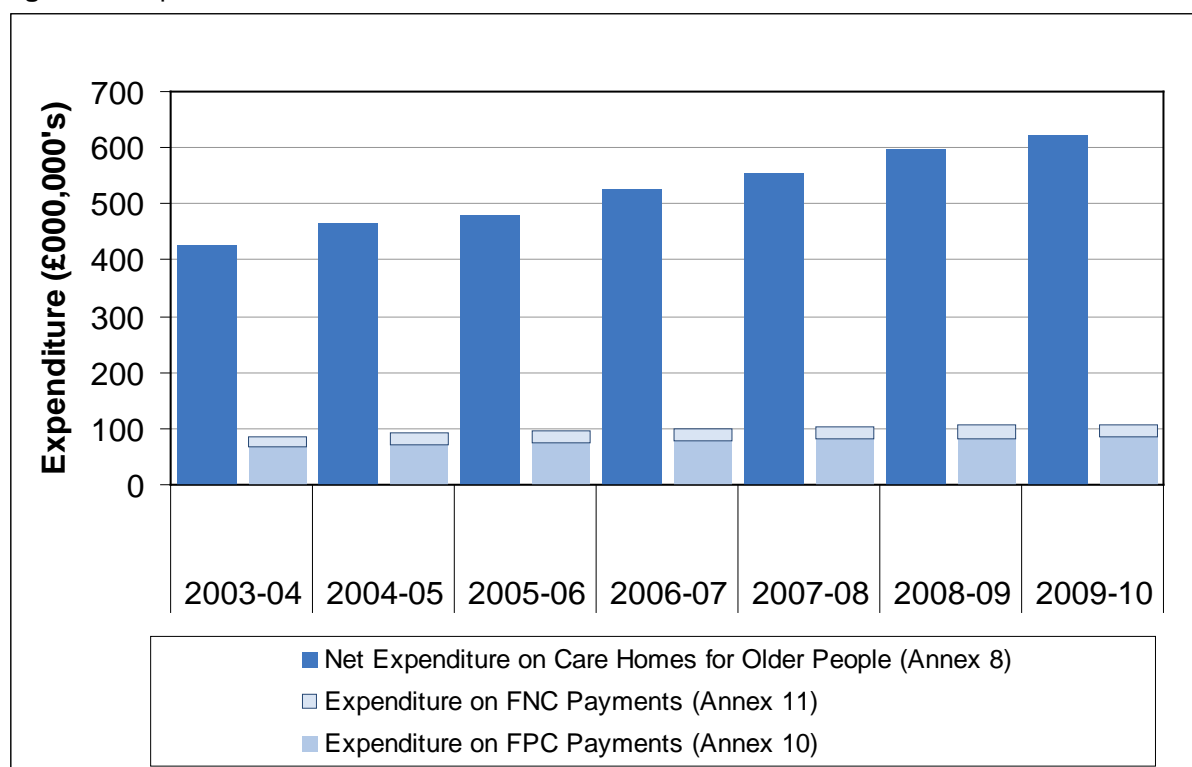

### 4.1 Care Homes

From 1 July 2002, personal and nursing care services became free for people aged 65 and over resident in care homes. In practice this means that everyone aged 65 and over who has been assessed as requiring personal and/or nursing care services in a care home receives £145 per week for personal care and £65 per week for nursing care.

The weekly payments for personal care and nursing care have increased in recent years. For 2008-09 to £149 and £67 respectively from the 1st April 2008 and for 2009-10 to £153 and £69 respectively from the 1st April 2009.

The expenditure data on free personal and nursing care relates only to self-funders who previously would have paid for all of their care. The figures therefore allow us to determine the additional cost to Local Authorities in Scotland, following the implementation of this policy, in relation to care homes.

**Figure 5 : Expenditure in Care Homes**

**Table 3:** Expenditure on Care Homes for Older People, 2003-04 to 2009-10**£ Millions**

	2003-04	2004-05	2005-06	2006-07	2007-08	2008-09	2009-10
Net Expenditure on Care Homes for older people (Annex 8)	424.9	464.8	479.9	527.5	555.1	598.0	621.1
Free Personal Care payments (Annex10)	67.7	72.4	75.6	77.1	81.0	82.3	84.3
Free Nursing Care payments (Annex 11)	18.7	20.6	21.7	22.1	23.2	23.6	23.4
Expenditure on FPNC in care Homes (Annex 9)	86.4	93.0	97.3	99.2	104.2	106.0	107.6
Expenditure on FPNC as percentage of Net Expenditure on Care Homes for older people	20.3%	20.0%	20.3%	18.8%	18.8%	17.7%	17.3%

Source: Free Personal and Nursing Care Expenditure Survey, Local Government Finance LFR3.

Table 3 shows that expenditure on free personal care for self-funders in care homes has shown an increase each year from £67.7 million in 2003-04 (first full year of the policy) to £84.3 million in 2009-10.

Expenditure on free nursing care for self-funders in care homes has also risen each year from £18.7 million in 2003/04 (first full year of the policy) to £23.6 million in 2008/09. For the first time in 2009-10 there has been a small decrease to £23.4 million.

The total expenditure for FPNC in care homes has risen from £86.4 million in 2003-04 to £107.6 million in 2009-10. This increase reflects the increasing number of self-funders up until 2008-09 and the annual increases in the FPNC payments from April 2008. Expenditure on Free Personal and Nursing Care payments to self-funders accounts for around a fifth of total net expenditure on Care Homes.

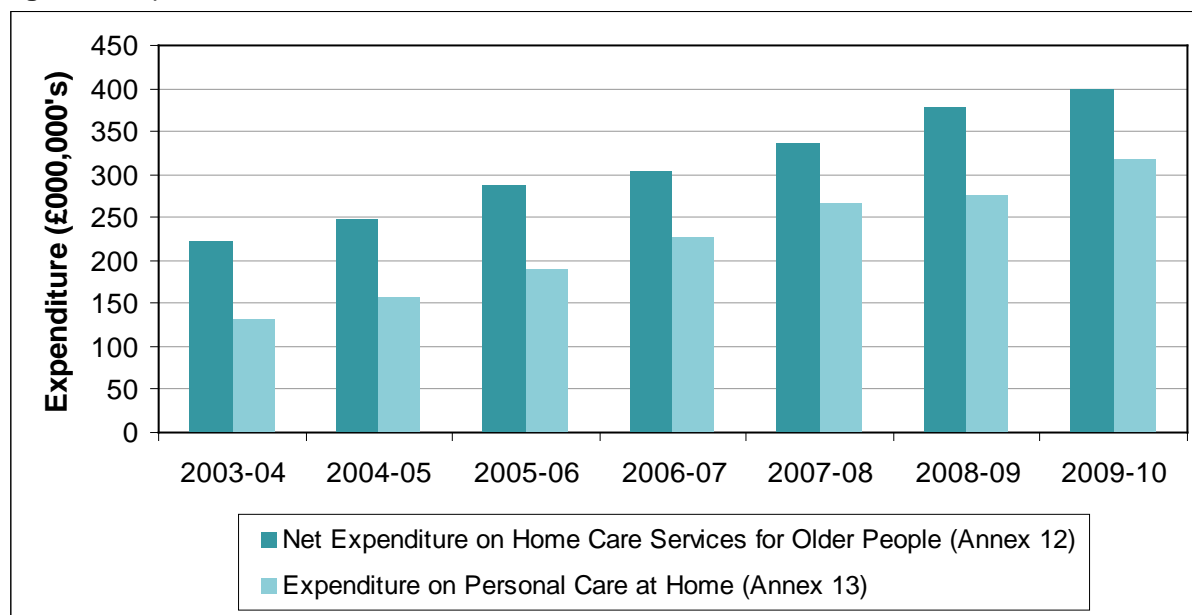

## 4.2 Home care

From 1 July 2002, all personal care services provided to people in their own homes became free of charge. Prior to this date, local authorities had discretion to charge for these services and a variety of charging policies operated across the country. Any charges were subject to a financial assessment which meant that in practise many people received these services for free prior to the introduction of free personal care. With the introduction of free personal care these services became free for **all clients**. Local authorities can still charge for domestic services such as help with shopping or housework.

Since 2002, information has been collected on the cost of providing personal care services at home. It should be noted that these costs do not tell us the additional cost of this policy as many people would have received these services for free prior to 2002 as noted above. It is estimated that at least £64.5 million was spent by Local Authorities on providing personal care services in 2001-02, the year before the policy was introduced. Details of how this was estimated are available from:

[www.scotland.gov.uk/Topics/Health/care/17655/SutherlandReview/Reports-Used/Care-Cost-Sub-Group](http://www.scotland.gov.uk/Topics/Health/care/17655/SutherlandReview/Reports-Used/Care-Cost-Sub-Group)

**Figure 6:** Expenditure on Home Care services

**Table 4:** Expenditure on Home Based Services for Older People 2003-04 to 2009-10

	<b>£ Millions</b>						
	2003-04	2004-05	2005-06	2006-07	2007-08	2008-09	2009-10
Net Expenditure on Home Care services for older people (Annex 10)	223.8	247.9	287.4	305.0	335.5	377.8	398.5
Expenditure on Personal Care at home (Annex 11)	132.8	158.0	189.1	228.2	267.5	276.9	317.4
FPC Expenditure as a percentage of total net expenditure on Home Care services	59.3%	63.7%	65.8%	74.8%	79.7%	73.3%	79.6%

Source: Free Personal and Nursing Care Expenditure Survey, Local Government Finance LFR3.

Table 4 shows total expenditure on personal care services at home has increased each year from £132.8 million in 2003-04 (first full year of policy) to £317.4 million in 2009-10, an increase of 139.0 per cent.

Expenditure on personal care services accounted for 59.3% of overall net expenditure on home care services in 2003-4 this increased each year to 79.7 per cent in 2007-08, decreasing in 2008-09 to 73.3 per cent. The percentage has increased again in 2009-10 to 79.6% and 34.2% increase when compared to 2003-04.

The more than doubling of spend on free personal care since it's introduction is reflected in the shift away from care being provided in either care homes or hospital towards more care being provided in peoples own homes. At the same time there has been an increase in the proportion of clients receiving personal care services as home care workers are increasingly providing personal care services rather than domestic services. These increases in expenditure will be linked to the National indicator to [Increase the percentage of people aged 65 and over with high levels of care needs who are cared for at home.](#)

## 5. Background information on the collection of the data

### 5.1 Data Sources

A variety of different data sources were used to compile this Statistics Release, as detailed below:

#### **Community Care Monthly key monitoring return**

Between 2002 and 2005 the Scottish Executive collected monthly information from Local Authorities regarding the number of residents supported in Care Homes. From 2006, this information was collected quarterly in the community care quarterly key monitoring return. This data is summarised in Annex 1.

#### **Community Care Quarterly key monitoring return**

Since July 2002, the Scottish Executive has collected quarterly information on the number of people receiving personal care services at home and the number of self-funders receiving free personal care and free nursing care payments. The numbers represent only those people receiving FPC and FNC under the Community Care and Health (Scotland) Act 2002.

For Care Homes, this provides a count of those people who are self-funders and are assessed as requiring free personal care and/or free nursing care.

For care at home the figures show all people receiving personal care services at home. Many of these people would have received their personal care for free prior to the introduction of the Community Care and Health (Scotland) Act 2002, but prior to July 2002 this was dependent on local policy and the client's financial status. It is estimated that Local authorities spent at least £64.5 million in 2001-02 on providing personal care services. Full details available from:

[www.scotland.gov.uk/Topics/Health/care/17655/SutherlandReview/Reports-Used/Care-Cost-Sub-Group](http://www.scotland.gov.uk/Topics/Health/care/17655/SutherlandReview/Reports-Used/Care-Cost-Sub-Group)

The results of the quarterly survey are available at:

<http://www.scotland.gov.uk/Topics/Statistics/Browse/Health/Data/QuarterlySurvey>

A copy of the survey form and notes for guidance is available at:

<http://www.scotland.gov.uk/Topics/Statistics/Browse/Health/DataSupplier>

#### **Free Personal and nursing care expenditure survey**

The Scottish Executive carried out a separate survey asking about expenditure on free personal and nursing care for 2002-03 and 2003-04. From 2004-05 onwards this data has been collected through the Local Financial Return (LFR3).

For Care Homes, the numbers represent spend on self-funding residents in Care Homes who receive FPC and FNC under the Community Care and Health (Scotland) Act 2002. It should be noted that Care Home residents who are supported under the National Assistance regulations also receive personal and nursing care for free but these costs are not considered here.

For care at home, the numbers represent all spend on personal care services provided to people in their own homes.

Copies of all Community Care Surveys are available from the website at:

<http://www.scotland.gov.uk/Topics/Statistics/Browse/Health/DataSupplier>

#### **Home care services census**

Information on home care services has been collected by the Scottish Executive since the 1980's by means of an annual census. The census covers all home care services provided or purchased by Scottish Local Authorities.

An aggregated table return for the home care statistical collection was introduced in 1998, called the H1. Local authorities were asked to provide details of all home care services provided by their own staff, and in addition, services bought in from other local authorities, and private / voluntary organisations. Information on client age, for level and type of service was introduced to the collection in 2005.

The information collected in the home care census has been reviewed by the Home Care review group. A revised home care statistical collection was introduced in March 2010 which collects information on an individual basis for each home care client receiving home help services, meals services and community alarm / telecare services. Further information is available from: <http://www.scotland.gov.uk/Topics/Statistics/Browse/Health/Data/HomeCare>

### **Local Financial Return (LFR3)**

The Local Financial Return collects expenditure statistics for each local authority in Scotland. The LFR3 collects all expenditure and income relating to social work services. From 2004-05, questions relating to expenditure on free personal care were added to the LFR3 return. Further information is available from: <http://www.scotland.gov.uk/Topics/Statistics/Browse/Local-Government-Finance>

## **5.2 Understanding the Statistics in this Report.**

All information in this Statistics Release is presented for the financial year 1<sup>st</sup> April to 31<sup>st</sup> March.

The Free Personal Care policy began on the 1<sup>st</sup> July 2002, part way through the financial year 2002-03. We have excluded figures for 2002-03, from this Statistics Release as the data is not for a full year and therefore can be confusing when trying to make comparisons with full years. Also the data for 2002-03 is less robust as Local Authorities were just beginning to get IT systems in place to monitor this information.

### Care Homes

In general, care should be taken when comparing the data on 'numbers' of people receiving free personal care and 'expenditure' on free personal care. The number of people receiving FPC and FNC payments is collected at the end of the quarter and represents the number of people receiving payments on the last day of the quarter. These four quarters are averaged to produce the yearly total.

Due to the large number of admissions and discharges throughout the year, these averages do not necessarily represent the number of people receiving FPC for the full 52 weeks of the year. In the year to March 2008, there were 12,400 long-stay admissions to care homes for older people in Scotland. This represents 240 long-stay admissions every week. It should be noted that these figures only provide a snapshot of the number of people receiving payments at the end of the quarter rather than a precise count of throughput.

### Care at Home

As with the care homes data, the quarterly data for FPC at home provides a snapshot at the end of each quarter which has been averaged to provide an annual figure. This will not compare directly with the expenditure data which takes into account fluctuations within each quarter.

## **5.3 Limitations of the Data**

For some Local Authorities, it appears that gross expenditure on personal care services at home is higher than overall net expenditure on home care services. This can happen for a number of reasons:

- Where resource transfer from Health Boards has been included as income against home care services for older people.
- Where supporting people grant has been included as income against home care services for older people.
- Where the personal care expenditure includes overheads but the home care expenditure returned in the LFR3 did not include an allocation of overheads.

Many Local Authorities have seen a rise in personal care at home costs from 2006-07. The reasons for this are not just increased demand but also:

- Shift in the balance of care, away from care homes towards more care at home.
- Introduction of equal pay provision resulting in higher wage costs.
- Providing refunds to clients for meal preparation where this was previously charged for.

## 5.4 Changes to the data

During the data validation process, a number of Local Authorities identified errors within data returns this has resulted in previously published figures being revised, full details below. This also means that figures will differ from those within source publications.

### Angus Local Authority

**Care Home figures** - Revised figures provided for 2009-10 for Care Home residents aged 65+, FNC & FPC clients aged 65+ and LFR expenditure figures.

### Clackmannanshire Local Authority

**Care Home figures** - Revised figures provided for 2009-10 for LFR expenditure figures for FPNC.

**Care at Home figures** - Revised figures provided for 2009-10 for the expenditure for FPC provided at home.

### Dumfries & Galloway Local Authority

**Care Home figures** - Revised figures provided for 2009-10 for FNC & FPC clients aged 65+ and LFR expenditure figures for FPNC.

**Care at Home figures** - Revised figures provided for 2008-09 for the of clients aged 65+ receiving on care at home.

### Dundee City Local Authority

**Care Home figures** - Revised figures provided for 2008-09 & 2009-10 for LFR expenditure figures for FPNC.

### East Ayrshire Local Authority

**Care at Home figures** - Revised figures provided for 2009-10 for the of clients aged 65+ receiving FPC at home and the average weekly hours. New figures taken from the Home care census return

### East Renfrewshire Local Authority

**Care Home figures** - Revised figures provided for 2009-10 for net expenditure on Care Home for older people.

**Care at Home figures** - Revised figures provided for 2009-10 for the net expenditure on care at home and FPC expenditure.

### Eilean Siar Local Authority

**Care Home figures** - Revised figures provided for 2004-05, 2005-06 & 2006-07 for LFR expenditure figures for FPNC.

**Care at Home figures** - Revised figures provided for 2004-05, 2005-06 & 2006-07 for FPC expenditure.

### Glasgow City Local Authority

**Care Home figures** - Revised figures provided for 2008-09 & 2009-10 for LFR expenditure figures for FPNC.

**Care at Home figures** - Revised figures provided for 2008-09 & 2009-10 for FPC expenditure.

### Highland Local Authority

**Care Home figures** - Revised figures provided for 2003-04 for LFR expenditure figures for FPNC.

### Inverclyde Local Authority

**Care Home figures** - Revised figures provided for 2007-08, 2008-09 & 2009-10 for LFR expenditure figures for FPNC.

**Care at Home figures** - Revised figures provided for 2007-08, 2008-09 & 2009-10 for FPC expenditure.

### Perth & Kinross Local Authority

**Care Home figures** - Revised figures provided for 2009-10 for LFR expenditure figures for FPNC.

### Shetland Local Authority

**Care at Home figures** - Revised figures provided for 2009-10 for FPC expenditure.

### South Ayrshire Local Authority

**Care at Home figures** - Revised figures provided for 2009-10 for FPC expenditure.

### West Dunbartonshire Local Authority

**Care Home figures** - Revised figures provided for 2009-10 for LFR expenditure figures for FPNC.

### **West Lothian Local Authority**

**Care Home figures** - Revised figures provided for 2009-10 for FNC & FPC clients aged 65+.

**Care at Home figures** - Revised figures provided for 2007-08, 2008-09 & 2009-10 for the FPC expenditure.

The CIPFA Best Value Accounting Code of Practice (BVACOP), Requires the inclusion of overheads within expenditure. For both Care Homes and Care at Home expenditure, since 2006/07 the LFR3 has required Local Authorities to include overheads in line with the BVACOP.

Due to the identification that overheads were not being included consistently within expenditure figures by Local Authorities. The previously published time series for expenditure on free personal and nursing care payments for the years 2003-04 to 2008-09, has been revised following extensive work to ensure that all figures include overheads. In addition the 2009-10 figures have also been revised when compared to the figures originally returned to the LFR (although these have not been published before).

Each Local Authority was asked to confirm if their expenditure figures firstly contained overhead figures and then to either detail the amount included or to provide an estimate of the amount that should be included. A number of Local Authorities couldn't provide figures for all of the years required, therefore for these Authorities overhead figures have been estimated, details have been provided below.

**Table 5:** Local Authorities requiring overhead figures to be estimated

<b>Local Authority</b>	<b>Care Home overheads</b>	<b>Home care overheads</b>
Dumfries & Galloway	2003-04 to 2008-09 esitmated based on 2009-10 figures	2003-04 to 2008-09 esitmated based on 2009-10 figures
East Ayrshire	No estimates required	2003-04 to 2005-06 esitmated based on returned overhead figures
East Dunbartonshire	2003-04 to 2006-07 & 2009-10 esitmated based on 2007-08 & 2008-09 figures	All years estimates based on Scotland average
East Lothian	All years estimates based on Scotland average	All years estimates based on Scotland average
Fife	2003-04 to 2008-09 esitmated based on 2009-10 figures	2003-04 to 2008-09 esitmated based on 2009-10 figures
Glasgow City	2003-04 to 2007-08 esitmated based on 2008-09 & 2009-10 figures	2003-04 to 2007-08 esitmated based on 2008-09 & 2009-10 figures
Midlothian	All years estimates based on Scotland average	All years estimates based on Scotland average
Moray	2003-04 to 2006-07 esitmated based on Scotland average	2003-04 to 2006-07 esitmated based on Scotland average
North Ayrshire	2003-04 to 2006-07 esitmated based on 2007-08 to 2009-10 figures	2003-04 to 2006-07 esitmated based on 2007-08 to 2009-10 figures
North Lanarkshire	2003-04 to 2008-09 esitmated based on 2009-10 figures	2003-04 to 2008-09 esitmated based on 2009-10 figures
Orkney Islands	2003-04 to 2008-09 esitmated based on 2009-10 figures	2003-04 to 2008-09 esitmated based on 2009-10 figures
Perth & Kinross	2003-04 to 2008-09 esitmated based on 2009-10 figures	2003-04 to 2006-07 esitmated based on 2007-08 to 2009-10 figures
Renfrewshire	All years estimates based on Scotland average	All years estimates based on Scotland average
Shetland Islands	No FPNC expenditure	All years estimates based on Scotland average
West Lothian	All years estimates based on Scotland average	All years estimates based on Scotland average

## 5.5 Cost of respondent burden

To calculate the cost of respondent burden to this survey each Local Authority was asked to provide an estimate of the time taken in hours to extract the requested information and complete the survey form. The average time from 18 Local Authorities has then been used within the calculation below to calculate that the total cost of responding to this survey is £2,466.

$$\begin{array}{rcl} & & \text{(number of responses)} \\ & & \times \\ \text{Cost of} & = & \text{median time it takes to respond in hours} \\ \text{responding (£)} & & \times \\ & & \text{hourly rate of typical respondent)} \\ & & + \text{any additional costs} \\ & & \text{experienced by data} \\ & & \text{providers} \end{array}$$

## 5.6 Further information

Further details and analysis of the data presented in this Statistics Release are available on request from the address given below. The Statistics Release is available on the Internet by accessing the Scottish Executive web site: –

<http://www.scotland.gov.uk/Topics/Statistics/Browse/Health/Publications>

Information at local authority level is shown in the annex to this Statistics Release.

## 6. ANNEX

The Annex provides detailed information for each Local authority area in Scotland:

### Care Homes

- Annex 1: Number of long-stay residents aged 65+ supported in care homes.
- Annex 2: Self-funders aged 65+ receiving FPNC or only FPC payments and all other self-funders receiving FNC payment in care homes.
- Annex 3: Self-funders aged 65+ receiving FPC payment in care homes.
- Annex 4: Self-funders receiving FNC payment in care homes.

### Care at Home

- Annex 5: Number of people aged 65+ receiving home care.
- Annex 6: Number of people aged 65+ receiving FPC at home.
- Annex 7: Hours of personal care received by older people at home.

### Expenditure on Care Homes

- Annex 8: Net expenditure on care homes for older people.
- Annex 9: Expenditure on FPNC in care homes.
- Annex 10: Expenditure on FPC in care homes.
- Annex 11: Expenditure on FNC in care homes.

### Expenditure on care at home

- Annex 12: Net expenditure on home care services.
- Annex 13: Expenditure on personal care service provided to people in their own home.

### **Expenditure figures without overheads.**

#### Expenditure on Care Homes

- Annex 14: Expenditure on FPNC in care homes (without overheads).
- Annex 15: Expenditure on FPC in care homes (without overheads).
- Annex 16: Expenditure on FNC in care homes (without overheads).

#### Expenditure on care at home

- Annex 17: Expenditure on personal care service provided to people in their own home (without overheads).

Note that Scotland totals may not equal the sum of the individual local authority figures because of rounding. Expenditure figures are not comparable between Local Authorities and financial year due to different application of overheads.

**Annex 1 : Number of long-stay residents aged 65+ supported in care homes**

All figures are yearly averages rounded to the nearest 10.

P - Provisional figures

This table includes self-funding residents in Care Homes, aged 65 and over who receive the Free Personal & Nursing Care (FPNC) payment or the Free Personal Care (FPC) payment only. The table also includes any self-funding residents in Care Homes under the age of 65 who receive only the Free Nursing Care (FNC) payment.

Weekly payment rates are as follows:

Year	FPNC	FPC	FNC
2003-04 to 2007-08	£210	£145	£65
2008-09	£216	£149	£67
2009-10	£222	£153	£69
2010-11	£227	£156	£71

## SCOTTISH GOVERNMENT STATISTICIAN GROUP

### OUR AIM

To provide relevant and reliable information, analysis and advice that meet the needs of government, business and the people of Scotland.

### OBJECTIVES

1. To produce statistics and analysis relevant to user needs by
  - Developing our understanding of customer requirements to ensure statistics are kept relevant and analysis is well targeted;
  - Developing the range of statistics and analysis we produce;
  - Where practicable improving timeliness;
  - Providing more statistics disaggregated by age, gender and ethnicity;
  - Developing more data for small areas through the Neighbourhood Statistics project;
  - Contributing to production of comparable statistics across the UK and internationally.
2. To ensure effective use of our statistics by
  - Contributing more directly to policy processes inside and where possible outside government;
  - Improving access to and presentation of data and analysis;
  - Improving the advice provided on statistics.
3. To work effectively with users and providers by
  - Maintaining arrangements to consult and involve users and providers;
  - Involving users and providers in planning developments in outputs and processes;
  - Minimising the burden on data providers through dropping or streamlining collections as appropriate, to ensure the benefits of the information justify the costs of collection.
4. To develop the quality of statistics by
  - Assuring and improving quality as an integral part of data collection and analysis and through regular reviews in line with National Statistics quality strategy;
  - Developing statistical methods, systems and classifications;
  - Working with the rest of the Government Statistical Service to develop joint approaches/solutions where appropriate.
5. To assure the integrity of statistics by
  - Maintaining and promoting integrity through implementation of the National Statistics Code of Practice and related protocols;
  - Safeguarding the confidentiality of data subjects.
6. To ensure the efficient and effective delivery of statistics products and services by
  - Making best use of all sources including administrative sources;
  - Working with other analysts to maximise the contribution of our own and other analysts' work;
  - Ensuring value for money;
  - Making best use of Information and Communications Technology;
  - Ensuring effective communication within the Statistician Group.
7. To develop our workforce and competences
  - Ensuring recruitment of staff with the necessary skills and potential;
  - Ensuring development of expertise amongst existing staff;
  - Promoting and upholding the standards of the statistics profession.

### This is a National Statistics publication

"This is a National Statistics publication. It has been produced to high professional standards set out in the National Statistics Code of Practice Protocol - see [www.statistics.gov.uk/about\\_ns/cop/default.asp](http://www.statistics.gov.uk/about_ns/cop/default.asp)

These statistics undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political interference."

Details of pre-release access will be provided in the Scottish Government Statistics Website under 'Forthcoming Releases'

## Correspondence and enquiries

Enquiries on Free Personal and Nursing Care should be addressed to:

Steven Gillespie  
Analytical Services Division  
Health Directorate  
St Andrews House  
Edinburgh, EH1 3DG  
Telephone: 0131 244 3777; Fax: 0131 244 2371  
e-mail: Swstat@scotland.gsi.gov.uk

General enquiries on Scottish Government statistics can be addressed to:

Office of the Chief Statistician  
Scottish Government  
3 Floor West Rear, St Andrews House  
EDINBURGH EH1 3DG  
Telephone: (0131) 244 0442; Fax: (0131) 244 2223  
e-mail: statistics.enquiries@scotland.gsi.gov.uk

Advice on specific areas of Scottish Government statistical work can be obtained from staff at the telephone numbers given below:
