

**Extract of request from Cabinet Secretary for Health and Sport's Private Secretary to relevant policy officials**

The Cab Sec did ask for an update on the position here [regarding Celtic's trip to Dubai], whether any other clubs were planning winter breaks and what is the process for them returning from said trips.

Apologies if I missed this update coming up but I would be grateful if you could have something to us by lunchtime.

**Request from First Minister's Covid Briefing Unit to relevant policy officials**

We've seen the examples of the various representations being made about this trip to Dubai by Celtic FC, and that Ms Freeman has asked for an update by lunchtime today.

With apologies for first adding to this request and then shortening the deadline, to enable us to brief the First Minister ahead of her statement to Parliament today, could we please have an FMQ style note summarising the issue, the SG position in response. And could we have this by 1030am this morning.
