

Doc 3 – Cooke Wk 32 2023 - Late Sea Lice Data Submission

From: <REDACTED> @gov.scot
Sent: Thursday, August 24, 2023 11:51 AM
To: <REDACTED> <<REDACTED>@cookeaqua.com>
Subject: RE: Late sea lice notification

Hi <REDACTED> ,

Thank you for the submission of the sea lice information for week 32, 2023. As you will be aware, Article 3 of [The Fish Farming Businesses \(Reporting\) \(Scotland\) Order 2020 \(legislation.gov.uk\)](#) requires sea lice information to be provided no later than 8 days after the end of the reporting week. Guidance is available at [Sea Lice Reporting Guidance](#). The sea lice data for week 32 has been submitted out with the required timescale.

Please let me know if there is any reasonable excuse, and what it is, for the failure to comply with the requirement of The Fish Farming Businesses (Reporting) (Scotland) Order 2020 for week 32 of 2023?

If you require any further information please let me know.

Regards,
<REDACTED>

Doc 4 – Loch Duart Wk 21 2023 - Late Sea Lice Data Submission

From: <REDACTED> (MARLAB)
Sent: Tuesday, June 6, 2023 3:05 PM
To: <REDACTED>@lochduart.com' <REDACTED>@lochduart.com>
Subject: Sea Lice Reporting - Late Submissions

Hi <REDACTED>

As you will be aware, Article 3 of [The Fish Farming Businesses \(Reporting\) \(Scotland\) Order 2020 \(legislation.gov.uk\)](#) requires sea lice information to be provided no later than 8 days after the end of the reporting week. Guidance is available at [Sea Lice Reporting Guidance](#).

The sea lice figures for week 21 of 2023 were due by 05th June 2023. Loch Duart Ltd have previously been late in submitting the information in week 41 of 2021; weeks 25, 39, 42 and 43 of 2022; and weeks 8, 9, 19 and 20 of 2023. **Please submit the required information and let me know if there is any reasonable excuse, and what it is, for the failure to comply with the requirement of The Fish Farming Businesses (Reporting) (Scotland) Order 2020 for week 21 of 2023?**

Due to this being the tenth late submission of sea lice information it would benefit ourselves if, following a review of Loch Duart Ltd's sea lice reporting procedures, you could inform us of any improvements that could be made to the SG reporting system to assist your business in meeting the reporting requirement.

I should remind you that it is an offence under section 2 of The Aquaculture and Fisheries (Scotland) Act 2007 to fail to comply, without reasonable excuse, with a requirement of The Fish Farming Businesses (Reporting) (Scotland) Order 2020.

If you require any further information please let me know.

Regards,

<REDACTED>

Subject: RE: Mowi Sea Lice Notification week 03 2022

Good morning <REDACTED>

I can confirm that Muck (FS1286) was fully empty week commencing 17.01.22

In terms of treatments planned at Grey Horse Channel – the plan was to reduce Biomass and do extended Freshwater treatments

Many Thanks

Good morning <REDACTED>

Thank you for sending these in –
There is a count missing for Muck (FS1286), was the site fully empty at the beginning of week 3?
Could you also provide a little bit more detail on the treatments being carried out at Grey Horse Channel (FS1122)?

Best regards,

Doc 9 – WRF Wk 22 2023 - Late Sea Lice Data Submission

From: <REDACTED> <<REDACTED>@wrs.co.uk>
Sent: Wednesday, June 14, 2023 1:29 PM
To: <REDACTED> (MARLAB) <<REDACTED>@gov.scot>
Subject: RE: Late sea lice notification

Hi <REDACTED>

Thanks for your message. I can only apologise for the late return of sea lice data on occasion. We are exceptionally busy looking after our stock particularly at this time of the year with unprecedented sea water temperatures and lack of rainfall over consecutive weeks making farming particularly challenging at the moment and stretching the resources of my fish health team of two staff. That being said, I have asked one of our <REDACTED> whether <REDACTED> can take on the job of submitting the data to MS so hopefully that will speed up the reporting.

Best,

<REDACTED>
