BUSINESS DETAILS

When did your business start trading? 23/06/2014

Are you either part of a holding company or part of a group? No

Sector: Human Health & Social Care

Business Legal Status: Registered Charity SCIO

Are you currently, or have you previously received, support (financial or otherwise) from Business Gateway? [REDACTED]

If yes, please specify what support you are receiving or have received:

[REDACTED]

Please briefly describe your main business activity, including your core products or services:

The Reward Foundation is a pioneering relationship and sex education charity with a diverse range of products. We have a set of seven lesson plans for schools available for free from our website and at TES.com. We also teach in schools upon request. We have a full-day training workshop for professionals on 'Pornography and Sexual Dysfunctions'. This is accredited by the Royal College of General Practitioners. We run a substantial website offering over 200 pages and blogs on the mental and physical impacts of pornography viewing. This is supported by a dedicated YouTube site and an active Twitter feed. We conduct research and we have now published six papers in peer-reviewed journals.

How many people (including yourself) does your business employ?

Investment Plan

Tell us what you are going to do with the grant? Our proposed project is to turn our existing one-day training workshop 'Pornography and Sexual Dysfunctions' into a digital product that can be delivered using an online training platform. We have not been able to deliver the package during lockdown, reducing our potential to generate income and raise awareness of these issues among healthcare and other professionals. Prior to lockdown, the workshop had been delivered 22 times to a total of 230 professionals, including many NHS staff.

I am currently working from an eight-year-old laptop which is severely limiting my ability to create and edit video for use as training materials. I have the video editing skills and I am a double-qualified teacher and trainer. I propose to purchase a powerful laptop that will make the process of creating an initial seven-hour set of video training modules into something that is efficient and effective. I already have the cameras and other equipment we need. A suitable, up-to-date laptop is the missing part of the equipment. The quote includes the Final Cut Pro X digital video editing package. I have previously been trained in the use of this software.

This laptop would not only allow The Reward Foundation to reach wider audiences in Scotland, but it will also allow us to deliver training world-wide in a very cost-efficient way.

The other element where we would like grant funding is for a one-year subscription to the leading online training platform Thinkific. Their 'Pro' package would give us the tools and resources we need to build and then host the workshop so we can turn it into a commercial success. This is usually USD 99.00 per month, but will be available at a slightly reduced rate for a 12-month subscription.

When will you purchase the equipment/software?

State Aid

The State Aid (or de minimis) Regulation allows up to €200,000 of support to be provided over any 3 fiscal years.

The €200,000 limit is for the total of all de minimis support from all public agencies. Please note that de minimis cannot be used for export aid, companies in difficulty, primary agricultural production, purchase of road transport vehicles or the coal sector.

De minimis aid in the fisheries sector (all fish and seafood products) is limited to €30,000 over 3 years.

The total public sector de minimis support to the company therefore needs to be assessed.

The company must declare de minimis support from all public agencies received in the past 3 years plus any pending applications for support.

De minimis awarded by public bodies over current and two previous fiscal years (£) [REDACTED]

Remaining de minimis available [REDACTED]

We **The Reward Foundation** declare that we have made a full enquiry into our affairs, and that, having done so, we and all other entities which form part of the 'single undertaking' of which we are a part confirm that we have received the above mentioned public sector support during the previous 2 fiscal years and the current fiscal year. **Yes**

Equal Opportunities Monitoring

Under the Enterprise Act, Scottish Local Government has an obligation to collect Equal Opportunities information for the purpose of ensuring fairness and transparency in service delivery to all sections of the community. Completion of the above information will allow us to monitor the uptake of our services and help us to achieve this commitment. All responses are optional.

Subject: DigitalBoost Development Grant Application Approved

Dear [REDACTED]

Thank you for applying for a DigitalBoost Development Grant. Your application has been reviewed by our Grant Team and we are pleased to inform you have been awarded a grant of £4,724.63.

You may now go ahead with your proposed project. You should submit your claim for the DigitalBoost Development Grant [here](#).

This is a match funding grant, and the grant will provide 75% of eligible project costs.

Payment of the grant can only be made upon receipt of proof of expenditure for the total project.

The documents required are

- electronic receipts and/or paid invoices for each item being claimed, and
- bank/credit card statements or copies of bank/credit card statements showing account name, number and sort code and payment of invoices/receipts for the whole project cost.
- Where an item is purchased using a credit card, the cost can only be claimed when payment equivalent to the full cost of the item has been made to the credit card used. Bank statement(s) showing payment against the credit card balance of at least the cost of the item(s) being claimed must be submitted. The full outstanding credit card balance does not need to be cleared.

Once we have verified the evidence, we will transfer the grant funds to your specified bank account within 5 working days.

Important: Please note that you have 4 weeks, from the date of this email, to submit your claim. Claims submitted after this time period will not be accepted. Your grant must be claimed before 21/02/2021 to allow payment to be made to you. Please note there will be no obligation to pay grant claims submitted after this date.

Approval for the DigitalBoost Development Grant also brings with it automatic access to a further grant of £1000 to strengthen the cyber resilience of your business. The Scottish Government recommend accreditation for Cyber Essentials as a minimum for cyber security. You now have the opportunity to undertake a 'cyber essentials pre-assessment' by Scottish Business Resilience Centre (SBRC) to identify how cyber secure your business is. The grant will fund this, and further training to address any cyber concerns that are identified. Please see attached Information Sheet on how to sign up to the cyber essentials pre-assessment. Please register through the SBRC link within 10 working days. The registration will take two minutes. The details you add to the registration are important so

the Trusted Partner can be prepared in advance.

If you are unable to register within the time frame, we will assign a Trusted Partner but the required registration details will then be requested of you before services commence. This may slow down your progress through the process.

Please note the grant will be paid directly to SBRC on your behalf on completion of the assessment and related training.

Under EC regulation 1407/2013 (de minimis aid regulation), this is a de minimis aid. There is a ceiling of €200,000 for all de minimis aid provided to any single undertaking over a 3-year fiscal period (the current fiscal year and the previous 2 fiscal years). Any de minimis aid awarded to you under this contract will be relevant if you wish to apply, or have applied, for any other de minimis aid. The total amount of de minimis aid awarded under this agreement is £4,724.63 which under today's EU exchange rate is 6,339.08 euros.

Yours sincerely

Hi [Redacted]

[Redacted] here from Thinkific, I hope you are having a nice day!

Our prices are all-inclusive, it's important to note that the pricing is in USD so our Pro plan is \$948 USD per year. If you are coming from the UK, the rate you pay would be different according to your currency and whether your card charges any conversion fees -> [How much does Thinkific cost?](#)

I'd love to get you connected with a member of our Solutions team to chat more about your needs and how Thinkific can help. Someone will be in touch shortly to schedule a call!

If we can help with anything in the meantime, please don't hesitate to reach out.

Sincerely [Redacted] Thinkific HQ
