## Section 2

### Barriers to Delivery

Please tick all that apply and expand briefly in the space provided below.

- Political resistance
- Delay/awaiting approval
- TRO or legal process capacity
- Design resource shortage
- Procurement or contactor delays
- Funding constraint
- Other (please specify)

*Some political resistance to individual streets and to removal of safety cameras on 20mph roads. The relevant committee has remitted two reports so far to full Council.  
There's a lot of work to prepare the TROs.  
Ideally, we would put display the orders online, but we don't have the resources for that.  
There was a problem procuring terminal signs and then getting them from the contractor. There are over 1000 signs for Bearsden (terminal and repeater).  
It has cost more than the grant.  
Lot of correspondence from the public about some streets, which needs responded to.  
This overlapped with pavement parking and it's the same team, so they were stretched.*

### Acceleration Options

What specific actions or support would allow your authority to complete delivery by March 2026?

*We are going to combine reports for TRO approval wherever possible.*

### Funding

What level of additional funding (if any) would enable completion by March 2026?

*If we have Council approval and £300,000, we will install as many signs as possible.*

## National Strategy for 20mph Implementation

**If your implementation runs beyond March 2026 please detail below your expected progress in 2026/27.**

**Q1 2026/27**

If additional orders are needed for missing streets, these will need advertised. If signing has not been completed, this will continue into FY 2026/27.

**Q2**

At some point, try to display the TROs online.
