

Tree Health

Last Refreshed: 18/02/2026

Query Notes:

All cases have been approved through the clearing process and the figures represent FGS commitments, not claimed values.

The Rhododendron Eradication - Follow Up Treatment areas have been highlighted with brackets and italics for reference but have not been included in the summed area figures to avoid double counting. The value of these capital items have been included in monetary figures as normal.

Deer Management

Query Notes:

All cases have been approved through the clearing process.
 The claim years shown in this report are between 2015 & 2029. Data could exist in future claim years beyond 2029. These future data are included in the 'All Year' totals but are not broken down further into the 'Quantity' and 'Committed Value' columns.
 Table 1: Displays data from the following Woodland Creation budget categories: Agroforestry (AGRO), Woodland Creation - CSGN (CSGN), Woodland Creation (WC) and Woodland Creation - High Rates (WC EXP).
 Table 2: Displays data from the WIG Habitat and Species option.
 Table 3: Displays data from the WIG Planning (WIG P) budget category which contains the Deer Management Plan Preparation Grant capital item.
 Table 4: Displays data from the SMF Species Control (SMF SC) budget category which contains the Sustainable Management of Forests - Species Conservation - Reducing Deer Impact option.
 In Table 4 the All Years quantity shows the total number of unique hectares supported. The annual breakdown will show the total area supported that year. SMF payments are made on the same area, each year, for 5 years.

Rhododendron Control

Last Refreshed: 08/02/2026

Query Notes:

All cases have been approved through the clearing process and the figures represent FGS commitments, not claimed values.

The Rhododendron Eradication - Initial Treatment capital item group includes the following capital items:
 Rhododendron control - Foliar spray treatment, Rhododendron control - Manual - Difficult, Rhododendron control - Manual - Light, Rhododendron control - Manual - Medium,
 Rhododendron control - Mechanised - Difficult, Rhododendron control - Mechanised - Medium, Rhododendron control - Stem injection - Difficult, Rhododendron control - Stem
 injection - Medium

The Rhododendron Eradication - Follow Up Treatment areas have been highlighted with brackets and italics for reference but have not been included in the summed area figures to
 avoid double counting. The value of these capital items have been included in monetary figures as normal.
