Subject: Traffic Signals A702 Hillend

Afternoon Both

Just a brief note to let you know that when I was travelling home last night the traffic on the Lothianburn Eastbound Off Slip were queued to almost the bottom of the slip road due to the traffic signals on the A702.

11(2) – Can we get the control room / JTRC to monitor the congestion in this area and send out ISR's during congested periods to advise on the delays.

Kind regards
