# Workplaces -

**Equality Impact Assessment Summary** 

#### Workplaces – Equality Impact Assessment Summary

#### Introduction

The Scottish Government (SG), together with Scottish Futures Trust (SFT), are working jointly on a programme to deliver new ways of working across the central Government estate.

Part of this involves significant change for both individuals, teams and business areas. The programme supports <u>In the service of Scotland our vision for the Scottish</u> <u>Government</u>. There is a growing need for the organisation to become more flexible and responsive to changing demands, e.g. short term growth and flex within the organisation.

Scottish Government current office provision was modelled on practices that assumed that most work would be desk based, and that there would be a dedicated desk per individual.

1.

Over time, our business requirements have changed and we have moved to a more flexible open plan structure, and have expanded our hot-desking capacity and support for flexible working from a range of locations.

These changes provide a sound foundation for us to consider further improvements to workspaces, use of enabling technologies and underpinning policies to embrace new ways of working. This supports changes to business processes, working practices and improve the work/life balance, and health and wellbeing of our people.

#### **Our Commitments**

We are committed to:

- making our workspaces more flexible and responsive to everyone's needs
- improving the experience of using these facilities
- getting the best value we can from the costs of running our office buildings
- increasing the range and number of different spaces within our office buildings

#### What we have done

Smarter Workplaces has introduced:

- a Laptop First approach where individuals are given a laptop, unless there is a specific case to maintain a desktop (e.g. if specific software is required or other medical reasons)
- a universal principle for the programme that encourages greater flexibility across the organisation
- a consistent workspace look and feel for the organisation
- equal access to refurbished utilities, hybrid meeting spaces, touchdowns and breakout spaces (i.e. space is available for all colleagues using the buildings)
- range of guidance has been produced to support users in smarter working
- Wi-Fi provision across the estate, without the need for a secure token

- improved multi-faith and contemplation facilities
- improved choice of toilet facilities
- work with business areas to ensure that any specific needs are catered for during moves, taking into account existing Occupational Health and Safety requirements for individuals in areas (which may include the requirement for a specific workstation to be fixed to an individual when they are in the office but useable by others when they are not)

#### Changes based on Feedback

- Disabled height sinks
- Gender Neutral Toilets
- Grace's sign
- Ablution facilities and multi-faith rooms
- Contemplation Room
- Reviewed carpet choices and colour schemes
- Laptop First Strategy over deployment of mini-pcs
- Secure Wi-Fi connection over hard cabled network connection
- Range of seating options at different heights
- Range of furniture solutions for individual and team working

#### What if colleagues have issues in Workplace?

If colleagues have an issue after moving to their new space then in the first instance they should speak their line manager. If required individuals/managers can then contact Occupational Health and Safety Branch for further assistance. Any recommendations from a DSE (display screen environment) will then be implemented to ensure no adverse effects.

#### Key Links

Further information on Workplaces is on <u>Saltire</u>.

#### Communication channels

| Table 1: Communication Channels for the Smarter Workplaces Programmer | ne |
|---|----|
|---|----|

| Engagement avenue  | Details   |
|--|---|
| Workplace Divisions<br>Operational Board                               | As lead any issues related to Workplaces can be raised at<br>this forum, including any that are specific to the protected<br>characteristics.   |
| Council of Scottish<br>Government Unions<br>(CSGU)                     | Workplaces has a monthly forum meeting with<br>representatives from CSGU the Smarter team also meets<br>with individual unions (PCS, Prospect and FDA) on particular<br>issues, as required. Any issues relating to the protected<br>characteristics can be raised there and will be taken forward<br>as part of the programme.   |
| Race Equality Network<br>(REN)/LGBTI+<br>Network/Disability<br>Network | Workplaces has worked with REN over the design and<br>implementation of the Multi-Faith Prayer room and ablution<br>facilities on the 4 <sup>th</sup> floor of Atlantic Quay. It has also worked<br>with the LGBTI+ network on the creation of the gender-<br>neutral toilets and with the Disability network on various<br>aspects of the work including accessible toilets, assistive<br>technology and allocation of lockers.<br>The division will continue to engage with these networks as<br>the plans for the future estate develop. |
| Wider Colleagues<br>Diversity Network<br>Consultation                  | This document has been updated based on their views and comments.   |
| Workspace<br>coordinators/Business<br>Managers                         | Workspace coordinators and business managers were a key<br>link between the programme and changes to individual areas.<br>It is now through the Business Managers network that any<br>issues relating to specific areas can be raised.  |
| Occupation Health &<br>Safety Branch (OH)                              | Workplaces OH are consulted over any proposed changes<br>where there has been a highlighted case either by an<br>individual or business area. This document has also been<br>shared with OH.  |
| Individuals  | Where appropriate Workplaces work with individuals over any specific needs or concerns.   |
| Survey tool  | In initial stages, a confidential survey monkey tool was used<br>to collection information on requirements within an area. This<br>was discontinued in favour of more direct confidential<br>communication.   |
| Yammer   | Key communication channel for Workplaces.   |
| Saltire  | Specific Workplaces pages on Saltire.   |

#### Equality Impact Statement and Protected Characteristics

Smarter Workplaces affects individuals across a range of buildings it will impact colleagues in different ways. This Equality Impact Statement is a live document that notes how Workplaces is addressing each Protected Characteristic both generally and where appropriately, specifically in each building.

| Protected      | Subcategory | General impact from  | Specific modifications   |
|----------------|-------------|--|--|
| characteristic | cuboulogory | programme  |  |
| Age            |             | Elderly relatives or<br>childcare responsibilities<br>mean that individuals<br>could have multiple caring<br>responsibilities (e.g.<br>elderly parents and<br>childcare).<br>Individuals with caring<br>responsibilities may have<br>an alternative working<br>pattern, which means they<br>may start or finish later<br>than the majority of<br>individuals in the<br>organisation.<br>Older colleagues may also<br>experience more age-<br>related health issues.  | The programme works with<br>Occupational Health and<br>Safety Branch as well as<br>local coordinators to ensure<br>that individual needs are<br>catered for when moving<br>into Smarter areas (e.g.<br>lockers at the right height,<br>lumbar support on chairs if<br>required, ability to adjust<br>height of desk If required).  |
| Disability     | General     | The generic layout is not<br>fixed and can be modified<br>where required to meet<br>any requirements around<br>specific disability issues.<br>Where required specialist<br>software will be installed<br>on users devices and<br>Smarter works with them,<br>iTECS and Occupational<br>Health and Safety Branch<br>to ensure that they are not<br>adversely affected by the<br>changes brought in.<br>Where specialist assistive<br>software is unable to be<br>hosted on a Laptop then<br>individuals will still have | Where colleagues have a<br>specific reasonable<br>adjustment we work directly<br>with the individual, their HR<br>professional adviser and the<br>Diversity and Equality team<br>to ensure that we are able<br>to identify and remove any<br>negative impact changes to<br>their workspace may<br>potentially have.<br>Examples of these are:<br>• High quality fully<br>adjustable chairs<br>available to all<br>colleagues, which<br>can have additional<br>lumbar support fitted<br>if required, which<br>exceeds minimum |

| <br>     |   |   |
|----------|---|---|
| Physical | access to a dedicated<br>mini-pc.<br>Smarter is working with<br>iTECs and Occupational<br>Health and Safety Branch<br>over the availability of<br>assistive technology in<br>shared spaces (e.g.<br>ZoomText), including on a<br>selection of mini-pcs in<br>touchdown areas. This will<br>allow individuals with a<br>disability/health issue to<br>have a wider choice of<br>settings in which to work.<br>The programme is<br>currently rolling out new<br>height adjustable desks,<br>which will replace the<br>requirement for the<br>majority of Varidesks in<br>future rollouts. These will<br>be retrofitted into existing<br>areas in VQ and AQ.<br>Colleagues with<br>disabilities may have an<br>alternative working<br>pattern, which means they<br>may start or finish later<br>than the majority of<br>individuals in the<br>organisation.<br>Where specialist assistive<br>software is unable to be<br>hosted on a Laptop then<br>individuals will still have<br>access to a dedicated<br>mini-pc. | <ul> <li>requirements for<br/>chairs</li> <li>Continuation of<br/>specific<br/>chairs/footrests for<br/>colleagues where<br/>highlighted by a DSE<br/>assessment</li> <li>Raised desks where<br/>highlighted by a DSE<br/>assessment</li> <li>Further roll out of VC<br/>and Skype for<br/>Business</li> <li>Individual-specific<br/>modifications based<br/>on DSE assessment<br/>and conversations<br/>with Occupational<br/>Health and Safety<br/>Branch professionals<br/>(through our internal<br/>colleagues or an<br/>external provider,<br/>where required)</li> <li>In rare cases the set-<br/>up of fixed desks for<br/>individuals with very<br/>specific requirements</li> <li>Refurbished<br/>accessible toilets and<br/>easier access</li> <li>Larger sanitary bins<br/>added to the<br/>accessible toilets<br/>across the estate,<br/>where space permits,<br/>to allow for the<br/>disposal of larger<br/>items.</li> </ul> |
|          | that a wheelchair can<br>safely navigate the new<br>layouts and fire tracks<br>(highlighting fire escape<br>routes) are visible and<br>contrasted against the<br>carpet.  | As above  |

|                                    | Mental    | Working with Occupational<br>Health and Safety Branch<br>and CSGU over how<br>Mental disabilities can be<br>catered for within a<br>Smarter area.                         | <ul> <li>Individual-specific<br/>modifications based<br/>on DSE assessment<br/>and conversations<br/>with Occupational<br/>Health and Safety<br/>Branch professionals<br/>(through our internal<br/>colleagues or an<br/>external provider,<br/>where required)</li> <li>In rare cases the set-<br/>up of fixed desks for<br/>individuals with very<br/>specific requirements</li> </ul> |
|------------------------------------|-----------|---|--|
|                                    | Hidden    | Working with Occupational<br>Health and Safety Branch<br>and CSGU over how<br>hidden disabilities can be<br>catered for within a<br>Smarter area.                         | <ul> <li>Individual-specific<br/>modifications based<br/>on DSE assessment<br/>and conversations<br/>with Occupational<br/>Health and Safety<br/>Branch professionals<br/>(through our internal<br/>colleagues or an<br/>external provider,<br/>where required)</li> <li>In rare cases the set-<br/>up of fixed desks for<br/>individuals with very<br/>specific requirements</li> </ul> |
| Gender<br>reassignment<br>and sex  |           | Recognises that there are<br>people of various genders<br>and identities using our<br>buildings.<br>Implementation of gender-<br>neutral toilets across the<br>programme. | Improved signage where<br>these have been<br>implemented and working<br>with Facilities over cleaning<br>across toilets in general.  |
| Marriage &<br>civil<br>partnership |           | No impact and no change<br>to how Scottish<br>Government Policy on this<br>area is implemented.   | N/A  |
| Pregnancy & maternity              | Pregnancy | No change to how policy<br>on this area is<br>implemented.  | Individuals will be supported<br>by Occupational Health and<br>Safety Branch, HR and their<br>line managers during this<br>period to determine any   |

|                       | No reduction in space<br>nursing mothers during<br>renovation work.  |   |
|-----------------------|--|---|
| Race                  | No impact and no char<br>to how policy on this an<br>is implemented.   |   |
| Religion &<br>belief  | Refreshing, and where<br>possible, improving the<br>multi-faith, ablution<br>facilities and<br>contemplation spaces<br>within the buildings tha<br>the programme is activ<br>to be used by all religion<br>beliefs and non-beliefs | e should have no impact on<br>this characteristic, as there<br>is still access to gender<br>specific toilets should<br>at colleagues wish to use<br>/e in them. |
| Sexual<br>Orientation | No, impact no change<br>how policy on this area<br>implemented.  | to  |

Building specific changes to date

| Protected<br>characteristi<br>c | Subcategor<br>y | Specific modifications<br>in Atlantic Quay  | Specific modifications<br>in Victoria Quay   |
|---------------------------------|-----------------|---|--|
| Age                             |                 | Working with the AQ<br>Accommodation<br>Advisory Group over<br>short-term changes to<br>AQ to accommodate<br>substantial growth.  | No specific<br>modifications   |
| Disability                      | General         | Specific modifications<br>have taken place for<br>individuals across 3 <sup>rd</sup> –<br>7 <sup>th</sup> floors where<br>required.<br>Working with the AQ<br>Accommodation<br>Advisory Group over<br>short-term changes to<br>AQ to accommodate<br>substantial growth. | Specific modifications<br>have taken place with<br>individuals where<br>required.<br>Due to the location of<br>some of the accessible<br>toilets on the 3rd floor<br>of Victoria Quay (beside<br>kitchens), it is not<br>possible to fit touch<br>pads to these facilities<br>as this would be against<br>building regulations. To<br>overcome this issue<br>doors which cannot<br>have a sensor have a<br>delayed closure fitted.<br>This allows users with<br>limited mobility to enter<br>the doors without the<br>need to hold them<br>open.<br>We have been made<br>aware of some potential<br>issues with the<br>carpeting in Victoria<br>Quay and Smarter<br>Workplaces is working<br>to ensure that no<br>colleagues are placed<br>at a disadvantage by<br>working in a Smarter<br>Workplace<br>environment. |

|                                    | Physical | The glass doors on the<br>7 <sup>th</sup> floor of Atlantic Quay<br>were highlighted as<br>being heavy and users<br>with mobility issues<br>found them hard to<br>open. After assessing a<br>number of options,<br>Smarter Workplaces<br>introduced a new<br>electronic door opener.<br>This has made access<br>to the 7 <sup>th</sup> floor shared<br>space easier.  | now feature a second<br>sink at a reduced height<br>to allow individuals<br>using wheelchairs<br>easier access. This is<br>the standard design<br>now used within the<br>programme, where<br>space permits.<br>No specific<br>modifications   |
|------------------------------------|----------|---|---|
|                                    | Mental   | No specific modifications   | No specific modifications   |
|                                    | Hidden   | No specific modifications   | No specific modifications   |
| Gender<br>reassignmen<br>t and sex |          | Introduction of gender-<br>neutral toilets on the<br>UG and 1st floor of<br>Atlantic Quay. These<br>facilities are open to all<br>individuals working or<br>visiting the building and<br>gives individuals the<br>choice of using gender<br>neutral or gender<br>specific facilities. Toilet<br>facilities have a shared<br>sink but enclosed<br>cubicles.<br>Accessible/Male/Femal<br>e toilets are available<br>on the other floors so<br>users of the building<br>have a choice over<br>which facilities to use. | Introduction gender-<br>neutral toilets across<br>three locations on the<br>3rd floor of Victoria<br>Quay. These facilities<br>are open to all<br>individuals working or<br>visiting the building and<br>gives individuals the<br>choice. This is being<br>replicated on the 2nd<br>floor of Victoria Quay as<br>part of the next phase<br>of the Programme. In<br>Victoria Quay, the<br>gender-neutral toilets<br>are completely<br>enclosed with no<br>shared washing<br>facilities. The location<br>and type of toilet will be |

|   |           | This has no impact on<br>visitors to the building<br>as they can be escorted<br>when in the building<br>and so can be taken to<br>toilets on the higher<br>floors if they do not<br>wish to use these<br>facilities.   | replicated on the lower<br>floors as they are<br>refurbished.<br>Accessible/Male/Femal<br>e toilets are also<br>available across the<br>floors so users of the<br>building have a choice  |
|---|-----------|--|---|
| Marriage &<br>civil                     |           | No specific<br>modifications   | over which facilities to<br>use.<br>No specific<br>modifications  |
| partnership<br>Pregnancy &<br>maternity | Pregnancy | Working with the AQ<br>Accommodation<br>Advisory Group over<br>short-term changes to<br>AQ to accommodate<br>substantial growth.   | No specific<br>modifications  |
| Race                                    |           | No specific modifications  | No specific modifications   |
| Religion &<br>belief                    |           | Atlantic Quay now has<br>a Contemplation Room<br>on the 6th floor and a<br>Multi-faith Prayer Room<br>on the 4th floor. In<br>addition, refurbishment<br>of the 4th floor shower<br>room now provides a<br>combined shower and<br>ablution facility. There<br>are also screens, for<br>privacy, provided within<br>the 4th floor room. | As the changes to<br>Victoria Quay have<br>been focused on the<br>3rd and 2nd floors there<br>have been no large-<br>scale changes to the<br>facilities provided in<br>Victoria Quay. Minor<br>changes will be taken<br>forward in early 2018 in<br>the interim before it is<br>hoped that an Atlantic<br>Quay type facility on the<br>ground floor is<br>introduced but there is<br>no timescale yet for this<br>work as work is focused<br>on the 2nd floor of<br>Victoria Quay<br>(completing September<br>2018). This will allow a<br>wide-scale look at the<br>services available on<br>the ground floor and<br>ensure an offering that<br>meets the needs of a<br>range of users. |

| Sexual      | No specific N   | o specific    |

Other buildings

Prior to the COVID-19 pandemic (2020-2022) Workplace focused on changes within Atlantic Quay, Glasgow and Victoria Quay, Edinburgh. However, as other buildings are considered this Equality Impact Assessment will be updated.

## Non Specific Smarter issues that need to be addressed by the wider organisation

Comments on document has shown that:

- Process of getting a DSE and formal reasonable adjustment can be time consuming as well as very stressful, organisation needs to investigate ways to improve the user experience
- How to support people with current adjustments when moving to new space and who should take this forward?
- More support is needed when teams move around how to manage teams remotely
- More support is needed for teams for managing individual needs, especially around mental health issues
- How the organisation is managing hidden disabilities and mental health issues
- How areas manage specific requirements for individuals within a flexible space (e.g. how footrests, specific chairs etc. are stored when not in use)
- How the organisation can deal with individuals who do not wish to disclose their condition but may need modifications in place and where should the responsibility for this lie?
- How to know where things are in a building, especially for those with anxiety
- How to ensure that there are adequate fire marshals and first aiders within areas and that those with specific evacuation routes have formal points of contact within each area they work
- How to ensure that the location of evacuation chairs is known within the building and to ensure there are adequate people trained in their use
- iTECS to publish any tests from accessibility testing of VC/SfB systems
- How individuals/teams can manage anxiety in the workplace, especially around the question of shared desks
- How to increase the connection between Occupational Health and Safety Branch and iTECS to ensure that the assistive technology available to individuals is compatible with our IT systems
- How colleagues are supported generally to work in Smarter areas once they have moved to new ways of working, especially after the transition to business as usual
- Promotion of the VQ lighting codes to ensure that anyone working in the building can operate irrespective of their location

#### Next steps

The Central Estate Strategy (April 2019) covering the core estate and public bodies and the Asset Plan (October 2020) for the core estate highlighted that planning will ensure we have the right property and services in the right location, with the opportunity for a sustainable and well-managed estate. An Accommodation Policy will ensure an efficient, equitable and unambiguous approach to allocation and management of office accommodation across the estate.

This policy will apply to the core estate i.e. those buildings occupied by Scottish Government Directorates and will be introduced early 2022.

Any lessons highlighted from Smarter Workplaces, COVID-19 return to buildings and trialling hybrid working will be used to update this statement as well improve our processes.

As Workplaces continues to consider changes and improvements in office buildings this Statement should continue to be reviewed to ensure that, the protected characteristics are taken into account during design phases as well as implementation.

Workplaces Team March 2022

#### Annex A: Original Transforming Our Workplace Equality Impact Assessment

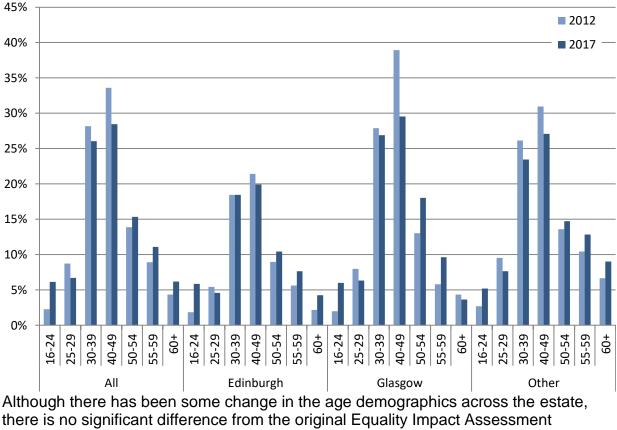

The original Equality Impact Assessment for Transforming our Workplace contains the baseline equalities data around the programme that was used to inform the Smarter Workplaces Programme.

#### Annex B: Comparison between 2012 and 2017 characteristics

This annex shows the comparison between the 2012 data included in Annex A and an extract from November 2017.

In general, there is no significant change in the distributions since 2017. Age

#### Figure 1: Age distribution across estate between 2012 and 2017

(Figure 1).

#### Grade

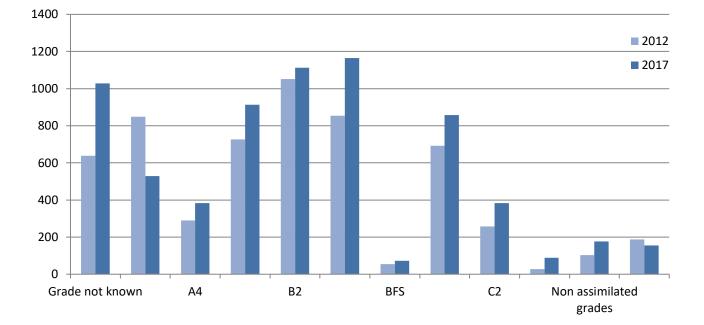

Figure 2: Grade comparison between 2012 and 2017

Figure 2 shows that, in general across all grades (except A3 and SCS) there has been an increase. Grade not known are generally contractors such as those working with RPID and on the set up of the new Social Security Agency. This shows that the organisation has grown since 2012.

#### Disability

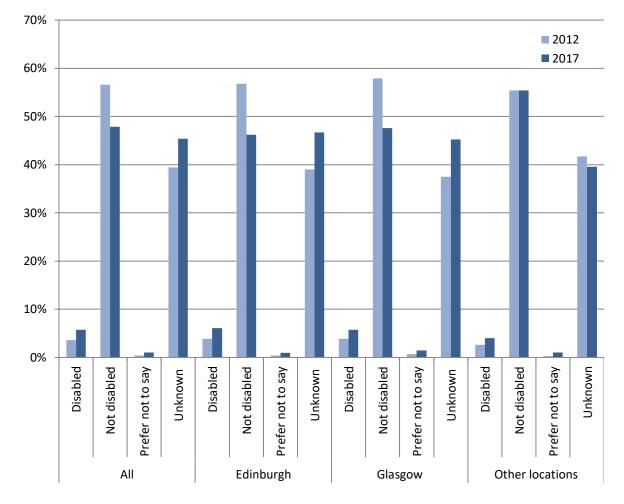

Figure 3: Disability comparison between 2012 and 2017

Figure 3 illustrates that there has been a slight increase in those identifying themselves as disabled between 2012 and 2017, and a decrease in those identifying themselves as not disabled.

#### Gender

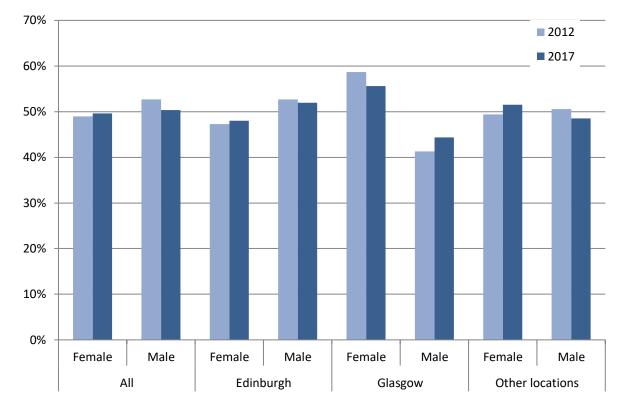

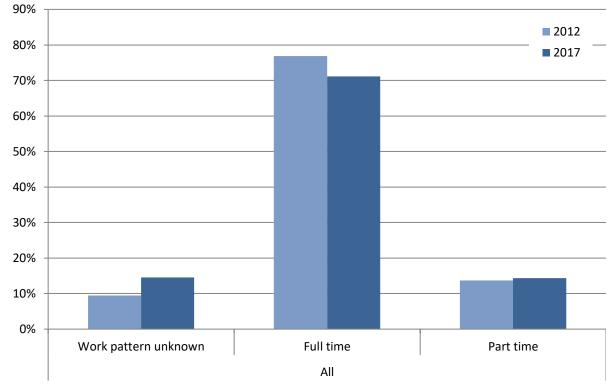

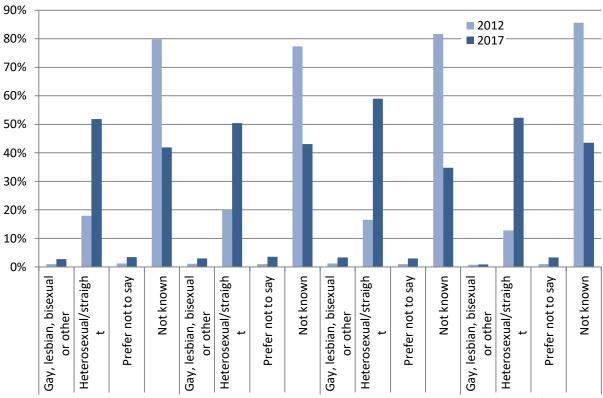

Figure 4 shows that overall there has been a slight increase in the proportion of the overall workforce that is female, and a reduction in the overall proportion which is male.

#### Working pattern

Although there has been some slight changes in working pattern, there are no significant differences from the ToW EQIA.

Sexual Orientation Figure 6: Sexual Orientation comparison between 2012 and 2017

Note that the recording of sexual orientation has improved since 2012, therefore the data is not directly comparable.

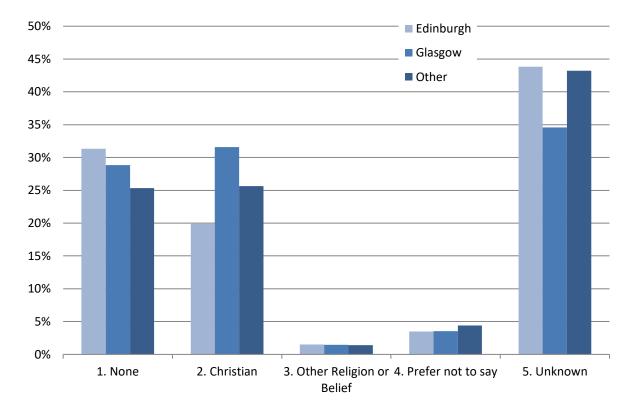

90% 2012 80% 2017 70% 60% 50% 40% 30% 20% 10% 0% Ethnic minority White White White White Ethnic minority Ethnic minority Ethnic minority Unknown Prefer not to say All Edinburgh Glasgow Other

Figure 7: Race comparison 2012 and 2017

Although there have been some slight changes, there are no significant differences from the ToW EQIA.

#### Religion

The data between 2012 and 2017 is not comparable but the distribution in 2017 is given in Figure 8.

#### Figure 8: Religion breakdown across estate in 2017
