

# General licence for the movement of poultry by-products and hatching eggs for disposal from premises in a protection or surveillance zone (EXD389(HPAI)(GB))

This licence permits, subject to compliance with relevant law and the conditions set out in this licence, the direct movement of poultry by-products and hatching eggs for disposal from premises in a protection zone or surveillance zone to other premises within or outside a zone within England, Scotland or Wales.

This licence is valid from **10am on 12 December 2022** and revokes and replaces the EXD389(HPAI)(GB) licence that came into force at 11am on 3 March 2022.

This licence has been issued by the Department for Environment, Food and Rural Affairs, Scottish Government and Welsh Government and it applies to England, Scotland and Wales.

Signed:

A handwritten signature in blue ink, consisting of a stylized 'D' followed by a horizontal line and a loop.

David Harris Veterinary Inspector

Date: 12 December 2022 Time: 10am

Veterinary Inspector appointed by the Secretary of State, Scottish Ministers and Welsh Ministers.

If the activity that you wish to undertake is not covered by this licence, or if you are unable to comply with any of the terms and conditions which apply to the use of this licence, then you will need to apply for a [specific licence](#).

# Legislation

This licence is made under the powers contained in the Animal Health Act 1981 (as amended) and “the Order” which means:

- The Avian Influenza and Influenza of Avian Origin in Mammals (England) (No.2) Order 2006 (as amended)
- The Avian Influenza and Influenza of Avian Origin in Mammals (Scotland) Order 2006 (as amended)
- The Avian Influenza and Influenza of Avian Origin in Mammals (Wales) (No. 2) Order 2006 (as amended)

This general licence is issued in accordance with:

- paragraph 16 of Schedule 4 and paragraph 15 of Schedule 5 of the Order in England and Wales
- paragraph 17 of Schedule 4 and paragraph 16 of Schedule 5 of the Order in Scotland

## Conditions of the licence

1. The move must be directly to the approved disposal premises within England, Scotland or Wales.
2. Movement and disposal of waste hatching eggs and other poultry by-products must be as a Category 1 or Category 2 animal by-product (ABP) as required by the relevant animal by-products legislation. At the disposal premises the waste hatching eggs and poultry by products must be heat treated, without undue delay, to destroy any avian influenza virus which may be present.
3. Eggshell must not be used unprocessed directly on to land, or for use in any products that are fed to animals
4. Immediately prior to each movement or removal of waste the licensee must inspect hatchery records and any live poultry on the premises to check that they show no [clinical signs](<https://www.gov.uk/guidance/avian-influenza-bird-flu>) that could be associated with avian influenza.

5. The licensee must notify the Animal and Plant Health Agency (APHA) within 24 hours of the inspection to confirm that the inspection has been carried out and that the poultry on the premises showed no clinical signs that could be associated with avian influenza. The notification must include the consignor's name and address, the destination disposal centre and the date and results of the inspection. The notification can be made by email to [Outbreak.Licensing@apha.gov.uk](mailto:Outbreak.Licensing@apha.gov.uk) or in writing to: The Licensing Team, APHA, Level One, County Hall, Spetchley Road, Worcester, WR5 2NP.
6. The vehicle used to transport the waste must be leak proof and covered. There must also be a spill kit available in the vehicle during transport in case of any spillage.
7. The collection vehicle should not be taken onto the premises of origin (where possible) beyond the perimeter of the premises and should not pass over any surface that could possibly be contaminated with mud, slurry, poultry faeces, excretions, feathers, litter, eggshell or other similar matter liable to transmit disease. The transfer of the waste should be at the perimeter of the premises.
8. The vehicle's wheels and wheel arches must be cleansed and disinfected before leaving any premises from which waste has been collected. The cleansing and disinfection after loading must take place at a point beyond which no contamination with mud, slurry, poultry faeces, feathers, litter, eggshell or any similar matter can take place.
9. After unloading at the disposal premises:
  - the parts of the vehicle and any equipment used to transport anything which might be contaminated with mud, slurry, poultry faeces, excretions, feathers or any other similar matter must be cleansed and disinfected on site
  - the vehicle's wheels and wheel arches must be cleansed and disinfected after unloading and before leaving the destination premises
10. The licensee must ensure that any person(s) involved in this movement:

- does not enter or leave any poultry or captive bird premises wearing clothing or footwear which is visibly soiled with mud, poultry or bird faeces or any similar matter
- cleanses and disinfects their footwear before entering or leaving any premises or place where poultry or captive birds were present
- removes any disposable clothing before leaving a poultry or captive bird premises and does not reuse it at further premises
- ensures non disposable clothing is clean and free of all visible contamination before leaving a poultry or captive bird premises
- takes all other reasonable precautions to avoid transferring mud, slurry, animal faeces, excretions, feathers or any other similar matter between poultry and captive bird premises

11. Cleansing and disinfection must be in accordance with:

- article 66 of the Order in England and Wales
- article 65 of the Order in Scotland

12. This licence does not apply to movements to or from any premises which has been served a restriction notice by a veterinary inspector.
