Scottish Government Maternal and Infant Nutrition Survey

Investigating your diet and health choices for pregnancy

This is a survey about your choices and experiences in pregnancy.

The information you provide will help us to understand more about the choices people make when they are expecting a baby and help health care professionals to better support expectant parents. **All of the answers you provide will be entirely confidential.**

Please read the enclosed letter for more information about this survey.

**Instructions**

The survey takes around 10-15 minutes to complete. Please answer all questions, unless the instructions ask you to skip a question.

For most questions, you will be asked to put a tick in the box next to the statement which most applies to you. For example, if your answer is yes, write in a tick as below:

- [ ] Yes
- [x] No

Don’t worry if you make a mistake; just cross it out and tick the correct answer.

Sometimes you will be asked to write in a number. Please enter numbers as figures rather than words. For example:

```
22
```

Weeks

If you prefer, you can complete this survey online at: [survey.natcen.ac.uk/MINS9](survey.natcen.ac.uk/MINS9)

You will be asked to enter the User Code that can be found on the letter that came with this survey.

Alternatively, you can give your answers by calling the FREEPHONE survey helpline on 0800 652 4568. The helpline is open Monday to Friday - 9am to 5pm.

Please return the survey in the pre-paid envelope provided, or to: NatCen Social Research, 103-105 Kings Road, Brentwood, Essex CM14 4LX.

We would like your permission to add your survey responses to other information held about your health and care by NHS Scotland (for example the weight of your baby at birth). Your information will be used only for research and we will never give out your contact details. If you give your permission to add your survey responses to other health and care information held about you it will not be shared with the people who look after you and will not affect your current or future treatment or care.

43. Do you give your permission for NHS Scotland Statisticians to add your survey responses to other information about your health and care for the purpose of further research?

1. Yes → Go to Q.44
2. No → You have now finished this survey

44. What is your date of birth?

We are asking you to provide your date of birth so that we can add your survey responses to other information held about your health and care by NHS Scotland. Your date of birth will not be shared with anyone and it will not be possible for anyone to identify you in the survey results.

45. What is your Community Health Index (CHI) number?

We are asking you to provide your CHI number so that we can add your survey responses to other information held about your health and care by NHS Scotland. Everyone who is registered with a Scottish GP practice has their own unique CHI number. Please note that your CHI number also contains your date of birth. This number uniquely identifies you within NHS Scotland and is attached to all of your health records. Your CHI number will not be shared with anyone and it will not be possible for anyone to identify you in the survey results.

Your CHI number is 10 digits long and should be printed on the front page of your maternity record or on your hospital appointment cards.

Thank you for taking the time to complete this survey
