

# Self-directed Support (Direct Payments), Scotland, 2012

A National Statistics Publication for Scotland

Published: 25 September 2012

ISBN: 978-1-78256-116-3

## 1. Introduction and key points

This Statistics Release presents the latest figures on the number of people in Scotland who use Direct Payments to purchase and manage for themselves some or all of the social care and support services they need. The latest figures apply to payments made during the period 1<sup>st</sup> April 2011 to 31<sup>st</sup> March 2012.

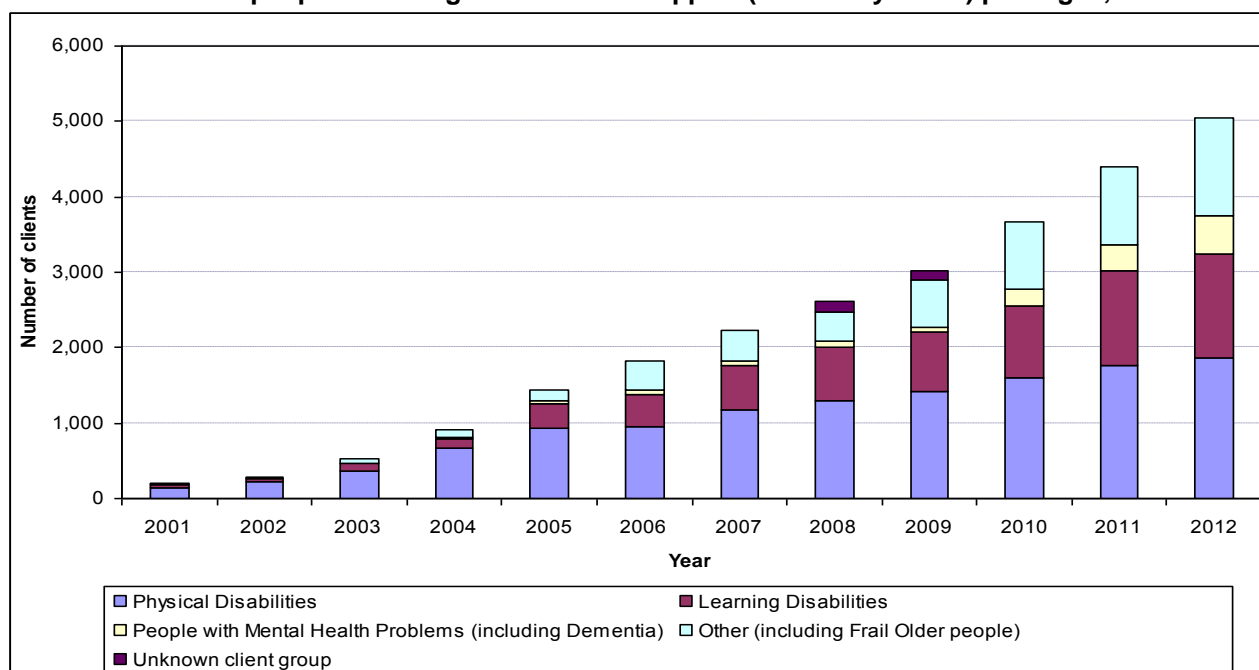

Self-directed support (SDS) is a term that describes the ways in which individuals and families can have informed choice about how their social care and support is provided to them. SDS gives people control over an individual budget and allows them to choose how it is spent on support which meets their agreed health and social care outcomes.

SDS includes a number of options for getting support. The person's individual budget can be:

- 1) Taken as a **Direct Payment** (a cash payment)
- 2) Allocated to a provider the individual chooses. The council or funder holds the budget but the person is in charge of how it is spent (this is sometimes called an individual service fund)
- 3) Or the council can arrange a service chosen by the individual
- 4) Or the individual can choose a mix of these options for different types of support

The information in this Statistics Release is derived from returns made to the Scottish Government by Scottish Local Authorities and relates only to people who take SDS as a Direct Payment (option 1 above).

**Chart 1: Number of people receiving Self-directed Support (Direct Payments) packages, 2001-2012**

Note: Prior to 2010, the Dementia client group was not collected separately and may have been included under 'Mental Health Problems' or 'Other'.

## **Key findings**

### People receiving Self-directed Support (Direct Payments)

- The number of people in receipt of Self-directed Support (Direct Payments) has increased each year from 207 in 2001 when these figures were first collected to 5,049 in the year to 31st March 2012.
- Over the last year, the number of people in receipt of Direct Payments has increased by 15 per cent from 4,392 in 2011 to 5,049 in 2012.
- The number of people using Direct Payments to purchase care and support has increased each year while the number of people receiving home care services provided or purchased by local authorities has fallen over the last 5 years. The number of people using Direct Payments is still small when compared with the 63,500 people receiving home care services at March 2011.
- 37 per cent of people receiving Self-directed Support (Direct Payments) had a physical disability and 24 per cent had a learning disability. A further 4 per cent had both a physical and a learning disability.

### Value of Self-Directed Support (Direct Payments)

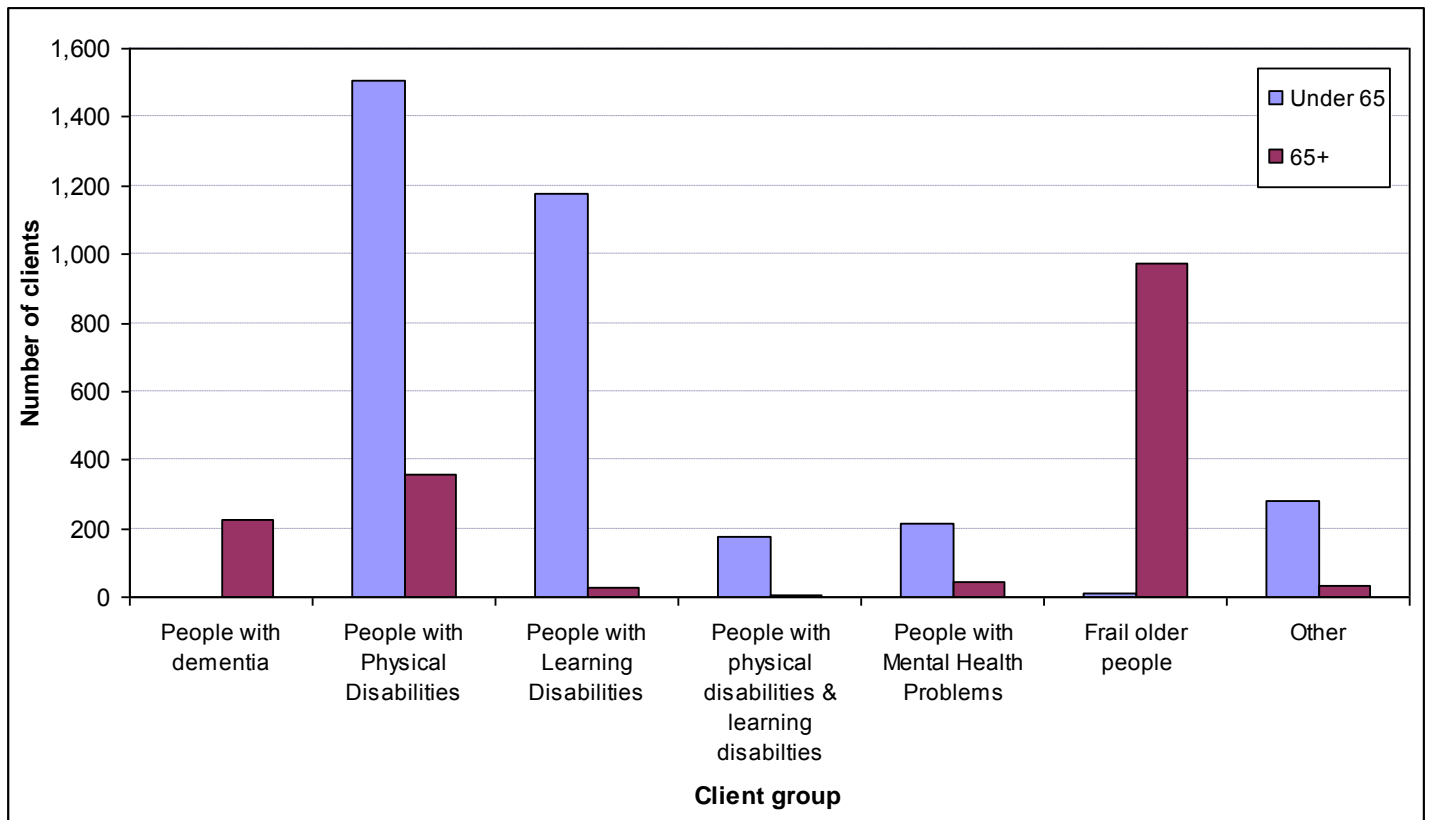

- The value of direct payments has increased each year from £2.1 million in 2001 to £59.4 million in 2012.
- Over the last year, the value of direct payments increased by 18 per cent, from £50.2 million in 2011 to £59.4 million in 2012.

## 2. Scotland Analysis

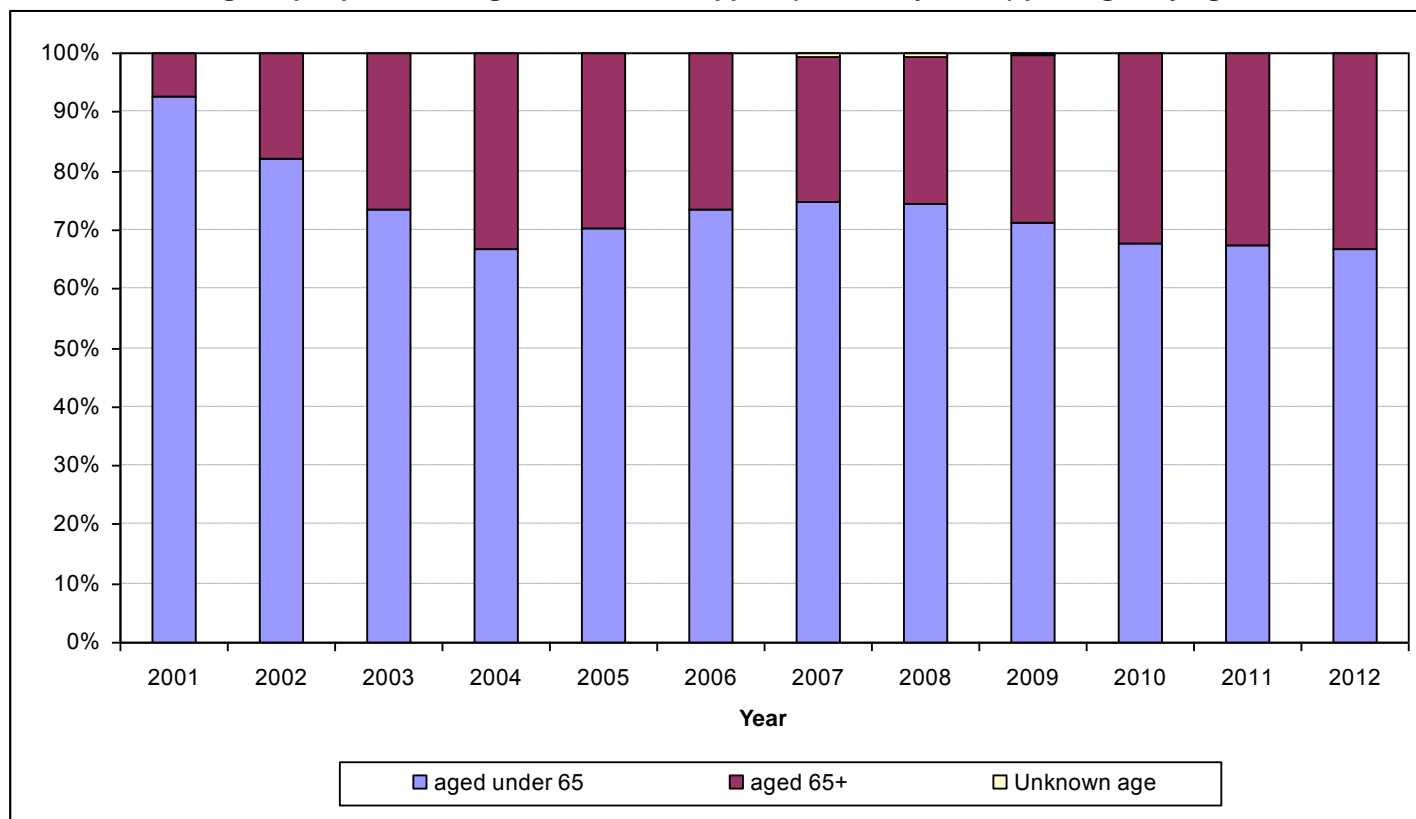

Figures behind the charts are available in the annex.

- Across Scotland 5,049 people received Self-directed Support (Direct Payments) in the year 2011/12, an increase of 657 (15 per cent) from the 2010/11 level.
- 37 per cent of these 5,049 people received Self-directed Support (Direct Payments) due to a physical disability. 24 per cent had a learning disability and 4 per cent had both a learning disability and a physical disability.

**Chart 2: Number of people receiving Self-directed Support (Direct payments) packages by client group and age, 2012**

**Chart 3: Percentage of people receiving Self-directed Support (Direct Payments) packages by age, 2001-2012**

- The age profile of Self-directed Support (Direct Payment) clients has changed since 2001, with a greater proportion of recipients now aged 65 or over. In 2001 only 7 per cent of recipients were in this age group, compared to a third of clients in 2012.
- In the year to 31 March 2012, 1,663 people aged over 65 received payments (33 per cent of the total).
- Overall there were slightly more females than males in receipt of Self-directed Support (Direct Payments) in 2012, 53 per cent compared to 47 per cent.
- The age profile varies by age group. In the under 35 age groups there were more males than females using Direct Payments while in the 65 and over age group, there were nearly twice as many females than males.

**Table 1: Age and gender of clients receiving Self-directed Support (Direct Payments) packages, 2012**

	Age					Total
	0-17	18-34	35-49	50-64	65+	
<b>Male</b>	448	678	328	386	556	2,396
<b>Female</b>	249	421	422	454	1,107	2,653
<b>Total</b>	<b>697</b>	<b>1,099</b>	<b>750</b>	<b>840</b>	<b>1,663</b>	<b>5,049</b>

Source: Self-directed Support (Direct Payments) Survey, Scottish Government

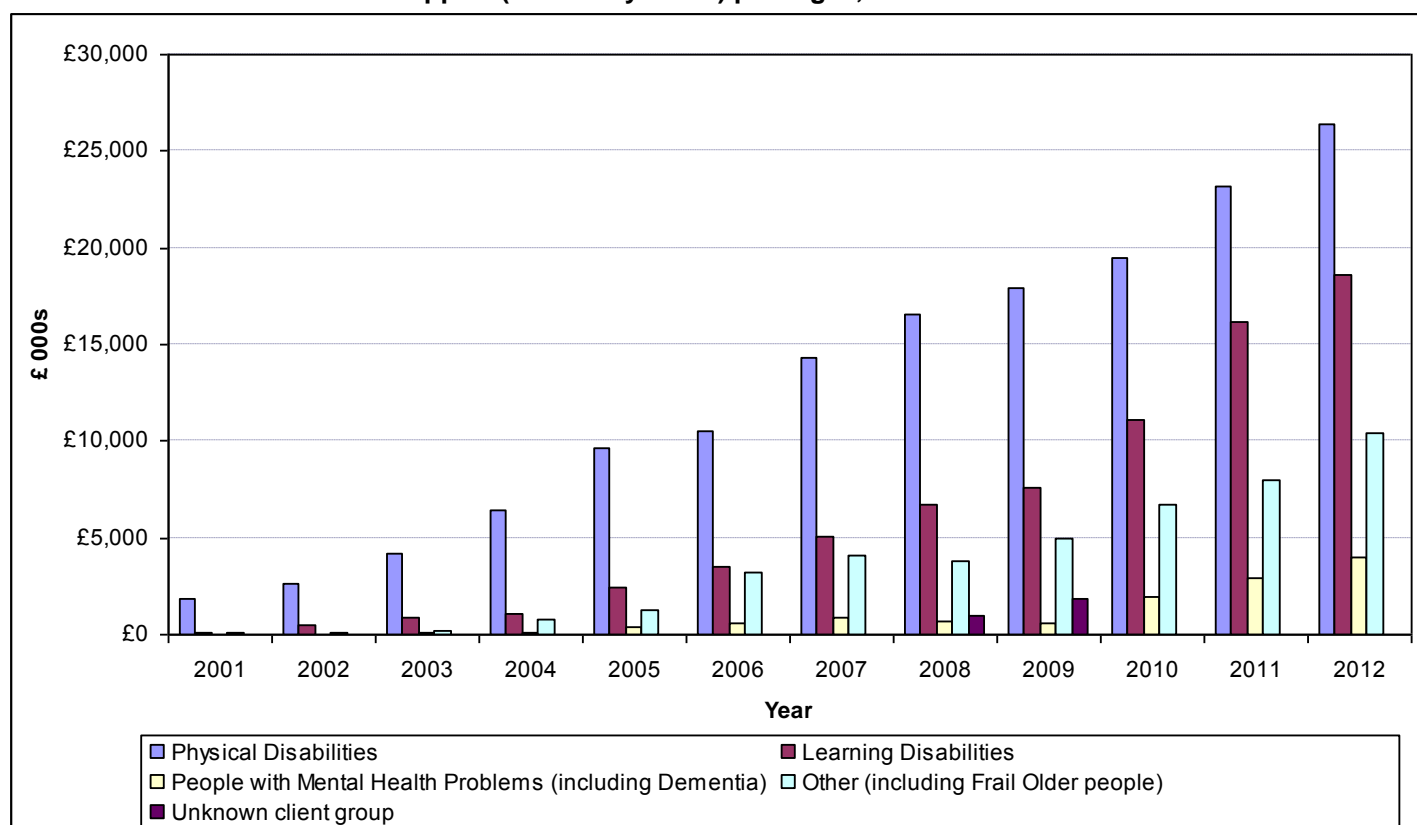

**Table 2: Ethnicity of clients receiving Self-directed Support (Direct Payments) packages, 2012**

Ethnicity	Number of clients
White	4,001
Mixed or multiple ethnic groups	14
Asian	50
African, Caribbean or Black	12
Other ethnic background	28
Not disclosed	85
Not known	859
<b>All</b>	<b>5,049</b>

Source: Self-directed Support (Direct Payments) Survey, Scottish Government

- In the year to 31 March 2012, 97 per cent of the people who received payments and their Ethnicity was known, were of White ethnicity (4,001 people).

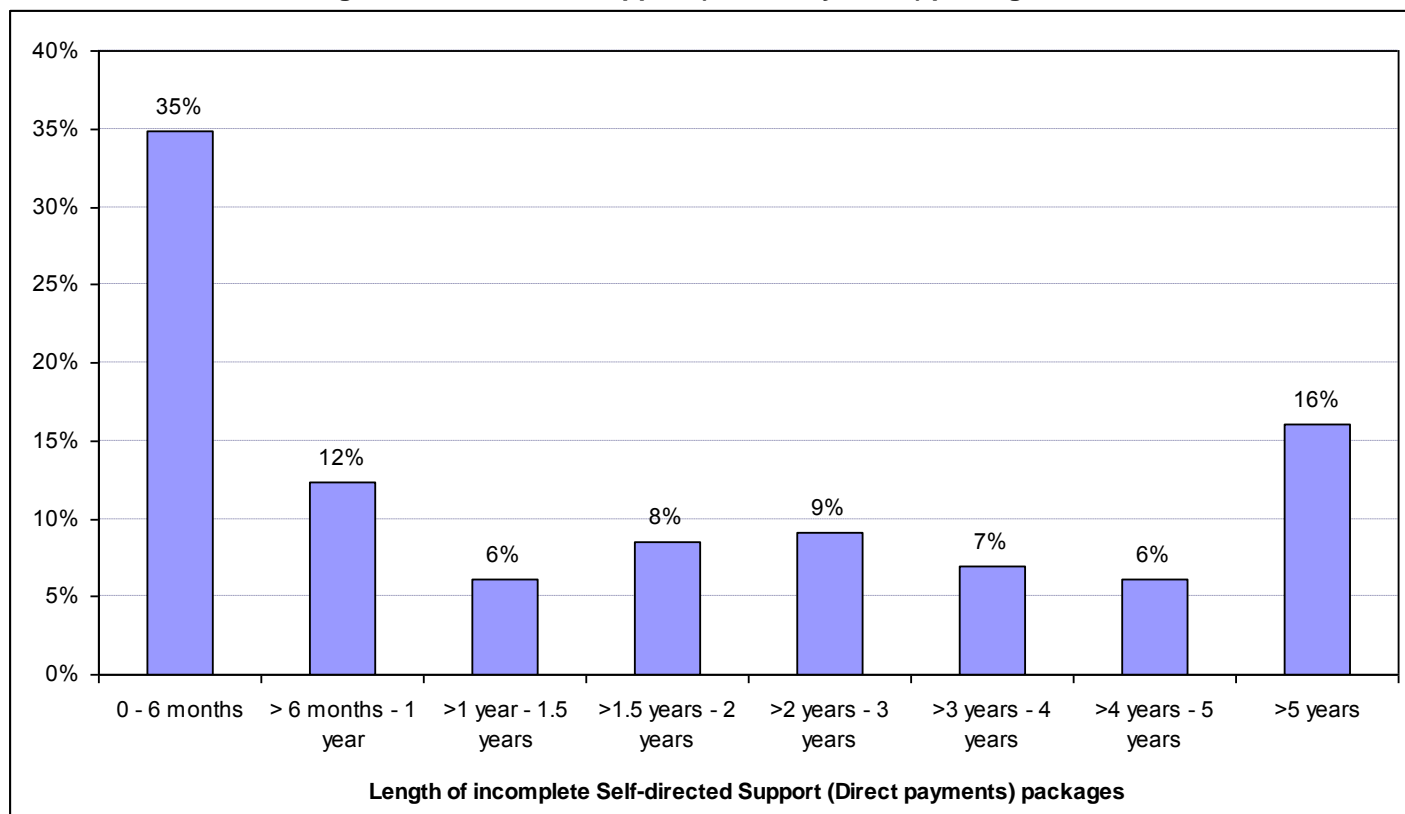

**Chart 4: Value of Self-directed Support (Direct Payments) packages, 2001-2012**

Note: Value of payments has been estimated for Renfrewshire Council in 2010.

- The total value of direct payments has steadily increased each year from £2.1 million in 2001 to £59.4 million in the year to 31 March 2012.
- The largest spend in 2011/12 was £26.4 million spent on people with physical disabilities (44 per cent) followed by £18.6 million spent on people with learning disabilities (31 per cent).

**Chart 5: Distribution of length of Self-directed Support (Direct Payments) packages, 2012**

- Of the direct payments which were ongoing on 31 March 2012, 47 per cent had been in place for a year or less. A further 15 per cent had been going for over 1 year but less than 2 years and 16 per cent of payments had been in place for over 5 years.

**Table 3: Type of Self-directed Support (Direct Payment) provision, 2012**

Type of DP provision	Packages of Self-directed Support (Direct Payments)	% of all packages of Self-directed Support (Direct Payments)
Personal Care	2,978	53%
Health Care	106	2%
Domestic Tasks	700	13%
Housing Support	601	11%
Social/educational/recreational activities	1,137	20%
Equipment and temporary adaptations	16	0%
Respite	1,238	22%
Meals	198	4%
Other	970	17%

**Source: Self-directed Support (Direct Payments) Survey, Scottish Government**

*Note that this table presents packages and not clients. A client may have more than one package of SDS (Direct Payment).*

*Note that as more than one type of provision can apply to an individual client package, percentages do not add to 100.*

*Note figures will not sum due to missing data*

- 53 per cent of all packages of Self-directed Support (Direct Payments) were for personal care and 22% were for respite allowing the person's carer to have a short break.

**Table 4: Type of care delivery, 2012**

<b>Type of Care Delivery</b>	<b>Self-directed Support (Direct Payments) packages</b>	<b>% of all Self-directed Support (Direct payments) packages</b>
Personal assistant (PA) Contract	2,188	39%
Service Provider	2,354	42%
Mixed	222	4%
Other	298	5%

**Source: Self-directed Support (Direct Payments) Survey, Scottish Government**

*Note Percentages are based on packages of Self-directed Support (Direct Payments) and not number of clients. This data was not provided for every package of Self-directed Support (Direct Payments)*

- 39 per cent of all packages of Self-directed Support (Direct Payments) involved a personal assistant.

### 3. Local Authority Analysis

There is a large variation between Local Authorities' providing Self Directed Support:

- City of Edinburgh council had the highest number of people receiving Self-directed Support (Direct payments) packages (16 per cent of the Scotland total) and these payments amounted to £11.5 million.
- Eilean Siar had the smallest number of clients with 22 people receiving payments.
- Scottish Borders had the highest rate of clients receiving Self-directed Support (Direct payments) packages per 10,000 population (27.9).
- North Lanarkshire had the lowest rate of clients receiving Self-directed Support (Direct payments) packages per 10,000 population ((2.7)
- These compare to a Scotland Average of 9.6 per 10,000 population.
- All but 4 Local Authorities had more people receiving payments in 2012 than in the previous year.

Further Local Authority analysis can be found in the annex.

**Chart 6: Rates of clients receiving Self-directed Support (Direct Payments) packages per 10,000 population, 2012**

## Background information on the collection of the data

The Self-directed Support (Direct Payments) survey began in 2001 and collects information on Direct Payments from all Local Authorities in Scotland.

The format of the survey was changed in 2006 to a person based return. This may have resulted in some inconsistency compared to previous years. The new survey asks for gender, date of birth, client group, value of direct payment throughout the year, weekly hours in the direct payment package, type of direct payment provision and type of care delivery along with a number of other variables.

In 2010, the data collection changed from an Excel spreadsheet to local authorities submitting the data to the Scottish Government via a secure web-based system called ProcXed. The ProcXed team in Scottish Government support and develop secure, efficient and effective electronic data exchanges between local authorities and Scottish Government. The system reduces administrative burdens and increases the speed, ease and accuracy (via inbuilt data validation checks) of information exchange. It additionally encourages best practice and improves access to benchmarking information. Moreover, the ProcXed system provides a secure method of sharing data. Further information about ProcXed can be provided on request using the contact details below.

In 2010, the client group categories were reviewed by Community Care Statistics and aligned to the 2010 home care statistical return. It may not be possible therefore, to directly compare some client group analysis over time.

In 2010, Renfrewshire were unable to provide detailed information about the packages of support. An estimated value of their packages has been included in the Scotland total based on the average value of direct payment for Scotland, multiplied by the estimated number of packages for Renfrewshire (based on the number of clients which was provided).

All 32 local authorities provided information in 2012.

Some column totals in the tables in this document may not exactly equal the sum of their component parts due to the effects of rounding.

### Revisions from previous publications

Argyll & Bute have revised their 2010 financial figures, by £220,877 (one payment was incorrectly calculated).

Perth & Kinross could only provide weekly rather than annual payment figures. We have estimated annual payments for Perth & Kinross using the weekly payments and the start and end dates of the Direct Payment packages.

### Cost of respondent burden

To calculate the cost of respondent burden to this survey each Local Authority was asked to provide an estimate of the time taken in hours to extract the requested information and complete the survey form. The average time from 19 Local Authorities has then been used within the calculation below to calculate that the total cost of responding to this survey is £6,742.

$$\begin{array}{rcccl} & & \text{(number of responses)} & & \\ & & \times & & \text{any additional costs} \\ \text{Cost of} & = & \text{median time it takes to respond in hours} & + & \text{experienced by data} \\ \text{responding (£)} & & \times & & \text{providers} \\ & & \text{hourly rate of typical respondent)} & & \end{array}$$

### Review of the Self-directed Support (Direct Payments) survey

The Self-directed Support (Direct Payments) survey has recently undergone a review by the Scottish Government with data providers and users. From 2013, the survey will be combined with the Home Care survey into a larger Social Care survey. Further details can be found at:

<http://www.scotland.gov.uk/Topics/Statistics/Browse/Health/DataSupplier/HSCSCCResults>

### **Further information**

Further details and analysis of the data presented in this Statistics Release are available on request from the address given below. The Statistics Release is available on the Internet by accessing the Scottish Government web site: –

Source: Self-directed Support (Direct Payments) Survey, Scottish Government

Note 1: In 2010, Renfrewshire's total value of payments has been estimated based on the Scottish average package - see table 4. This estimate is included in the Scotland total.

Note 2: 2007 and 2010 figures have been revised from previous publications.

Note 3: East Renfrewshire's 2007 direct payments figure is an estimate

**Annex Table 4: Average (Median) value of Self-directed Support (Direct Payment) packages by Local Authority, 2007-2012**

Local Authority	2007	2008	2009	2010	2011	2012
	Estimated Average (Median) Value (£,000)	Estimated Average (Median) Value (£,000)	Estimated Average (Median) Value (£,000)	Estimated Average (Median) Value (£,000)	Estimated Average (Median) Value (£,000)	Estimated Average (Median) Value (£,000)

Source: Self-directed Support (Direct Payments) Survey, Scottish Government

Note: In 2010, Renfrewshire were unable to provide data on their direct payment packages. In addition, Aberdeenshire direct payments is not available in a format comparable to other local authorities and therefore has been excluded from the table.

Note: in 2011, Aberdeenshire were unable to provide detailed breakdowns of individual direct payment packages.

Note – The median is the middle value and is calculated by dividing the number of direct payments that have been arranged into ascending/descending order into 2 groups. E.g. if we take the following financial values and arrange them in order we get £3,£4,£5,£6,£6,£6,£7,£9,£17. The value in the middle, £6, is the median as there are four values on either side of it. The median has been used in this publication as it is not influenced by one or two extreme values.

**Annex Table 5: Age profile of clients who receive Self-directed Support (Direct Payment) packages, 2001-2012**

Age Group	Number of clients											
	2001	2002	2003	2004	2005	2006	2007	2008	2009	2010	2011	2012

<b>Total<sup>1</sup></b>	<b>£2,064</b>	<b>£3,220</b>	<b>£5,422</b>	<b>£8,338</b>	<b>£13,701</b>	<b>£17,862</b>	<b>£24,255</b>	<b>£28,778</b>	<b>£32,988</b>	<b>£39,326</b>	<b>£50,160</b>	<b>£59,389</b>

Source: Self-directed Support (Direct Payments) Survey, Scottish Government

Note<sup>1</sup> The total value in 2010 excludes figures for Renfrewshire and so differs from the total value in Annex table 3 which includes an estimate for Renfrewshire

Note: 2007 and 2010 figures have been revised from previous publications.

Note: From 2010, client groups were revised and so figures for some client groups are not directly comparable to previous years, see background notes for further information.

## A NATIONAL STATISTICS PUBLICATION FOR SCOTLAND

The United Kingdom Statistics Authority has designated these statistics as National Statistics, in accordance with the Statistics and Registration Service Act 2007 and signifying compliance with the Code of Practice for Official Statistics.

Designation can be broadly interpreted to mean that the statistics:

- meet identified user needs;
- are well explained and readily accessible;
- are produced according to sound methods, and
- are managed impartially and objectively in the public interest.

Once statistics have been designated as National Statistics it is a statutory requirement that the Code of Practice shall continue to be observed.

Further information about Official and National Statistics can be found on the UK Statistics Authority website at [www.statisticsauthority.gov.uk](http://www.statisticsauthority.gov.uk)

## SCOTTISH GOVERNMENT STATISTICIAN GROUP

### Our Aim

To provide relevant and reliable information, analysis and advice that meet the needs of government, business and the people of Scotland.

For more information on the Statistician Group, please see the Scottish Government website at [www.scotland.gov.uk/statistics](http://www.scotland.gov.uk/statistics)

### Correspondence and enquiries

Enquiries on this publication should be addressed to:

General enquiries on Scottish Government statistics can be addressed to:

Steven Gillespie  
Analytical Services Division  
Health Directorate  
St Andrews House  
Edinburgh, EH1 3DG  
Telephone: 0131 244 3777; Fax: 0131 244 5427  
e-mail: [Swstat@scotland.gsi.gov.uk](mailto:Swstat@scotland.gsi.gov.uk)

Office of the Chief Statistician  
Scottish Government  
4N.06, St Andrews House  
EDINBURGH EH1 3DG  
Telephone: (0131) 244 0442  
e-mail: [statistics.enquiries@scotland.gsi.gov.uk](mailto:statistics.enquiries@scotland.gsi.gov.uk)

Further contact details, e-mail addresses and details of previous and forthcoming publications can be found on the Scottish Government Website at [www.scotland.gov.uk/statistics](http://www.scotland.gov.uk/statistics)

### Complaints and suggestions

If you are not satisfied with our service, please write to the Chief Statistician, 4N.06, St Andrews House, Edinburgh, EH1 3DG, Telephone: (0131) 244 0302, e-mail [statistics.enquiries@scotland.gsi.gov.uk](mailto:statistics.enquiries@scotland.gsi.gov.uk). We also welcome any comments or suggestions that would help us to improve our standards of service.

### ScotStat

If you would like to be consulted about new or existing statistical collections or receive notification of forthcoming statistical publications, please register your interest on the Scottish Government ScotStat website at [www.scotland.gov.uk/scotstat](http://www.scotland.gov.uk/scotstat)
