SCHEDULE 1 – STATEMENT OF REQUIREMENTS

FRAMEWORK REFERENCE: SP-18-014

**FRAMEWORK FOR THE PROVISION OF
INTERIM PROFESSIONAL STAFF SERVICES - NATIONAL**

STATEMENT OF REQUIREMENTS

Objectives

The Scottish Procurement & Commercial Directorate (SPCD) of the Scottish Government delivers innovative strategies and supplier relationships that enable public sector organisations in Scotland to access the goods and services they commonly need at market leading prices and terms. We do this through pursuing opportunities for collaborative procurement, and the implementation of leading practices, whilst promoting the economic and sustainable development of the wider Scottish market place.

The objectives of this exercise are to deliver Best Value to Scottish Public Bodies and Scottish Third Sector Bodies while maximising opportunities for suppliers of all sizes and contributing to the Scottish Government's Purposes (more information available at <http://www.gov.scot/About/Performance/scotPerforms>).

The Provision of Temporary & Interim Staff Services has been identified as having particular relevance to "Participation". Improved labour market participation is a key driver of economic growth and working to increase the number of people in employment, in particular from groups that face barriers to entering the job market. Best Value is the most appropriate balance of cost of acquisition (including but not limited to price), service provision and quality. The link above provides more details on this area.

A Framework is defined as "an agreement or other arrangement between one or more contracting authorities and one or more economic operators which establishes the terms (in particular the terms as to price and, where appropriate, quantity) under which the economic operator will enter into one or more contracts with a contracting authority in the period during which the Framework Agreement applies".

A Framework Agreement does not bind any contracting authority to purchase goods, services or works. A contracting authority can decide to use the Framework Agreement if it represents value for money but if a contracting authority considers that the Framework Agreement does not provide value for money, it can choose to award a contract outside the Framework Agreement.

This Framework Agreement is not mandated for use by public sector organisations in Scotland, however contracting authorities will be encouraged by SPCD to utilise the Framework Agreement where it meets their requirements.

Scottish Public Bodies and Scottish Third Sector Bodies may look to migrate to the new Framework Agreement as and when they reach the conclusion of current contractual agreements.

Statements of Requirements - Glossary of Terms

In this Statement of Requirements the following words have the meanings given to them as detailed below:

“Account Manager” – means a named individual who acts as a single point of contact for Framework Public Bodies for all operational queries and complaints relating to delivery of the Framework Agreement. The Account Manager will be held responsible to ensure that all requests are dealt with, to the Framework Public Bodies satisfaction, in a timely manner.

“Employment Business” – means as per the Employment Agencies Act 1973 and the Conduct of Employment Agencies and Employment Businesses Regulations 2003, an Employment Business is a business that offers contracts of employment to temporary workers, whose services are then temporarily offered on secondment to Framework Public Bodies.

“Scottish Government Main (SGM)” – means the collective main bargaining unit between the core Scottish Government Director Generals and those executive agencies covered by the same Terms and Conditions of employment.

“Scottish Procurement & Commercial Directorate (SPCD)” – means those responsible for facilitating User Intelligence Groups, National Category Forums and collaborative procurement exercises for goods and services classified as Category A and B following the review of public procurement in Scotland ([McClelland Report](#)).

“Strategic Contract Manager” – means the individual who will act on behalf of Framework Public Bodies, and serve as the sole point of contact, for all Framework contractual matters. The Strategic Contract Manager will take receipt of consolidated management information, and will facilitate Framework Agreement review meetings with the Contractor’s Contract Manager. They will monitor and ensure the satisfactory resolution of any strategic Framework contractual disputes or complaints and will work on an ongoing basis with Contractors and the Framework Public Bodies Contract Manager to confirm that consistent levels of service are delivered.

“Framework Public Bodies Contract Manager” – means the individual who takes operational responsibility for the day-to-day management of any contract under the Framework Agreement. Typically an HR Manager within the Framework Public Bodies organisation. The Framework Public Bodies Contract Manager – or nominated individual – will liaise directly with the Contractor for all Temporary and/or Interim Staff Service requirements including local management information. They will work with the Strategic Contract Manager and Human Resource colleagues across the Scottish public sector to monitor overall customer satisfaction, compliance with service levels and KPIs, continuous improvement and development of best practice.

1.1 Background

1.1.1 In 2005, the then Minister for Finance and Public Sector Reform requested that a review of public procurement in Scotland be undertaken. John F. McClelland CBE carried out this review and his report and recommendations were published in March 2006.

1.1.2 In April 2015, the Public Procurement Reform Board (PPRB) published "[Transforming Procurement, Accelerating Delivery](#)", a review of the second phase of public procurement reform 2010-2014. A summary is available [here](#).

1.1.3 The report recognised that the recommendations from John McClelland's 2006 [Review of Procurement in Scotland - Report and Recommendations](#) were now effectively business as usual, with future emphasis shifting to a new set of strategic objectives that underpin a more succinct vision for procurement in its third phase:

"Delivering procurement that improves public services for a prosperous, fairer and more sustainable Scotland."

1.1.4 The [Procurement Journey](#) is a feature of the review and its values are underpinned throughout this procurement process.

1.1.5 This Framework Agreement for the provision of Interim Professional Staff Services – National is the third generation of collaborative Temporary & Interim Staff Services Framework Agreements to be procured by Scottish Government.

1.1.6 This Framework Agreement for Interim Professional Staff Services – National is one of a number of Temporary and Interim Staff Service Framework Agreements to be collaboratively procured. Whilst the Framework Agreement will not be mandated across Framework Public Bodies, organisations within the Scottish public sector will be encouraged to use it by SPCD.

1.2 Overview of Requirements

1.2.1 The Authority does not guarantee that any or all of the Framework Public Bodies will opt to use this Framework Agreement for Interim Professional Staff Services – National (whole of Scotland) requirements, nor does the Authority guarantee any volumes of usage or spend throughout the life of this Framework Agreement.

1.2.2 Framework Public Bodies have a number of means by which they can fill temporary vacancies, including internal methods such as flexible deployment of staff or external methods such as fixed term appointment or secondments. The preferred method will be determined by the Framework Public Bodies on a case-by-case basis. **Permanent recruitment, fixed term appointments and secondments are out with the scope of this Framework. Consultancy is also out of scope.**

1.2.3 The Framework Agreement will be for a maximum period of four years, commencing on 13 April 2019 and expiring on 12 April 2023.

1.3 Vision

1.3.1 Contractors must be capable of supplying suitably qualified temporary/interim workers covering a diverse range of skill sets that have been through the relevant disclosure/security processes. The Contractor must be able to provide coverage Nationally (whole of Scotland), with consistent levels of service for varied assignment types and terms as required by the Framework Public Bodies on a cost effective and best value basis. The Contractor must provide comprehensive management information at all stages throughout the process and to all participating Framework Public Bodies.

1.4 General Requirements

1.4.1 Assignments are routinely to single posts although there may on occasion be a requirement to source multiple candidates for a specific project. Such instances could include, but are not limited to, the need to source seasonal temporary or interim workers required for the tourist season at tourist venues.

1.4.2 The Contractor will be able to provide Interim Professional Staff Services – National workers at the Framework Public Bodies' premises as and when required. The Contractor must ensure sufficient numbers of pre cleared and suitably qualified candidates are available. No guarantee is given that temporary/interim workers will be required at any/all of these premises throughout the duration of the Framework Agreement. Full lists of premises will be provided by the Framework Public Bodies prior to their use of the Framework Agreement.

1.4.3 Temporary/interim workers should be suitably trained and experienced to perform the duties required of them. Temporary/interim workers must also be eligible to work in the United Kingdom. Once a request has been raised it is the responsibility of the Contractor to obtain all necessary information about the organisation, the team where the assignment will be and the role to help identify the most suitable temporary/interim worker with the right capabilities and behaviours.

1.4.4 For those temporary/interim workers being offered Framework Public Bodies may insist that they already hold a valid basic Disclosure Scotland certificate at the point their name is offered to the hiring line manager. The aim is to reduce the time taken to complete the BPSS checks. Where a suitable worker is identified but they do not hold a valid certificate the onus is on the Contractor to advise the hiring line manager and seek their view on whether to put that person forward. The final decision rests with the hiring line manager.

1.4.5 While the Framework Public Bodies will normally be able to give a number of days' notice of the need for temporary/interim workers, the Contractor must be able to deliver appropriately vetted and security cleared temporary/interim workers at **48 hours'** notice where necessary. Please note - this timescale does not include any internal security procedures carried out by the Framework Public Bodies. The Framework Public Bodies will endeavour to provide greater notice for specialist roles. Where requirements cannot be met through the Contractor's own resources, the Contractor can source temporary/interim workers through other consortia members or third party sub-contractors named as part of the Framework Agreement. With the expressed permission of SPCD, additional sub-contractors/other consortia members may be added through the lifetime of the Framework Agreement. The Contractor will be responsible for ensuring that cost, service levels and all contractual obligations with their sub-contractor/other consortia members, mirror those agreed as part of the direct contractual relationship with the Authority.

1.4.6 The Contractor will work with the Framework Public Bodies Contract Manager during Framework Agreement implementation to establish their authorisation procedures for requesting temporary/interim workers. The Contractor will provide temporary/interim workers only in response to requests from the Framework Public Bodies Contract Manager or nominated individuals. Requests to the Contractor from any other representative within that organisation should be redirected to the Framework Public Bodies Contract Manager. In some instances, the Framework Public Bodies may delegate this responsibility to line managers. The Contractor must only supply temporary/interim workers following requests from hiring line managers, where they have been expressly advised they may do so by the Framework Public Bodies Contract Manager.

1.4.7 All Framework Public Bodies using temporary/interim workers should be aware of The Agency Workers Regulations (AWRs) 2010 and revised IR35 rules and how these may affect the temporary/interim workers procured via this Framework Agreement. SPCD requires all Framework Contractors to work closely with each individual Framework Public Body to understand their requirements and to agree the most suitable solution for them regarding AWRs and IR35. It is the responsibility of Framework Public Bodies to undertake the IR35 test for each assignment they are filling, and to inform Framework Contractors of the outcome.

Further guidance on IR35 can be found on the HMRC website at:

<https://www.gov.uk/guidance/off-payroll-working-in-the-public-sector-reform-of-intermediaries-legislation>

1.4.8 The Agency Workers Regulations (AWRs) give agency workers entitlement to the same or no less favourable treatment for basic employment and working conditions. This is usually subject to a qualifying period of 12 weeks in a particular assignment. However the Scottish Government has chosen to waive the qualifying requirements and so parity of basic terms which includes pay and holiday entitlement is applicable from the outset of an assignment. Accordingly, Scottish Government will not make use of the “pay between assignments” route (also known as the Swedish Derogation) which provides an exemption from the application of equivalent pay for agency workers. This approach may not be adopted by all Framework Public Bodies utilising this Framework Agreement and Framework Contractors must liaise closely with each individual organisation to ascertain/confirm individual policies and procedures in this regard. Further guidance on The Agency Workers Regulations (AWRs) can be found on the UK Government website at:

<https://www.gov.uk/government/publications/agency-workers-regulations-2010-guidance-for-recruiters>

1.4.9 The Contractor will provide suitable replacement temporary/interim workers to cover absence through holidays and sickness etc. of temporary/interim workers. Replacement temporary/interim workers must meet the same standards as those temporary/interim workers that they replace.

1.4.10 The workers supplied by the Contractor must remain at all times remunerated by the Employment Business/Contractor. Framework Public Bodies will have no responsibility for the direct payment of the temporary/interim worker fulfilling the temporary/interim assignment.

1.4.11 Under no circumstances should work be undertaken on a Framework Public Bodies premises, other than that for which temporary/interim workers have been appointed.

1.4.12 The Framework Public Bodies will pay for travel and subsistence at their standard rate when the temporary/interim worker is away from the office on official business. This excludes travel between the temporary/interim worker’s home and normal place of work or to any initial meeting with the hiring line manager as part of the Call-Off process. (Travel and subsistence will be paid on the basis of actual costs incurred only and on submission of receipts). **Travel and subsistence costs must not be included in daily or hourly rates or in overall charge rates.**

1.4.13 The Contractor must nominate a named Account Manager for each Framework Public Body, providing the Framework Public Bodies with their contact details. Account Managers may be assigned to more than one Framework Public Body. Account Managers must be contactable by phone and e-mail. The Contractor will provide details of an alternative contact to cover absence from the workplace for any reason.

1.4.14 Disaster Recovery – The Contractor shall establish and maintain methods for disaster recovery to ensure the Contractor’s ability to service the Framework Agreement throughout its life cycle.

1.5 Hours of Operation – Contractor

1.5.1 The Contractor will operate a Help Desk, staffed by workers familiar with the Framework Agreement and its Framework Public Bodies, to assist authorised contacts with orders and general queries. The Help Desk will operate between 8:30 am and 6.00 pm Monday to Friday and will be adequately staffed to handle all Framework Public Bodies' queries during this period. The Contractor will also provide an out-of-hours contact to support any out-of-hours or emergency requirements.

1.6 Hours of Work

1.6.1 Full-time working hours will be determined by the Framework Public Bodies. Access to the Framework Public Bodies premises will generally be limited to the normal working hours. The actual hours to be worked by the Contractor's temporary/interim workers will be agreed in advance of each assignment between the appropriate nominated individual within the Framework Public Bodies' organisation and the Contractor. This may be varied by local line managers. Some assignments may require temporary/interim workers to work flexibly. Requirements in terms of flexibility will differ from assignment to assignment and Framework Public Body to Framework Public Body. This must always be discussed and agreed in advance between the Framework Public Body and the Contractor and reflected in the Call-Off Contract documentation. **The need for temporary/interim workers to work from home is not generally a requirement of assignments under this Framework.** However, if the Framework Public Body wishes to permit the temporary/interim worker to work from home on occasion, or for a specific reason, this must be discussed and agreed in advance with the Contractor to ensure all issues/implications/risks (e.g. IT equipment, access to systems, data protection, Health & Safety etc. – this list is not exhaustive) have been fully considered and any appropriate action taken. It is the responsibility of Framework Public Bodies to ensure they comply with their individual organisation's internal policies and procedures regarding home working.

1.6.2 On occasion, there may be a requirement for temporary/interim workers to work out with the working hours agreed with the Framework Public Bodies, which may include weekends. Access to the Framework Public Bodies' premises for such instances will be agreed as and when such occasions arise. Any hours worked beyond the agreed normal hours, at the discretion of the Framework Public Bodies' organisation, *may* be considered overtime and if so, charges will be capped at the Framework Public Body's standard overtime rates for that role type – i.e. not necessarily the day rate paid to the temporary/interim worker. Temporary/interim workers will be entitled to an increased rate of pay based on the standard pay rate agreed for that position. The Contractor will not be entitled to any increased rate of commission. Overtime charges must not include any Working Time Directive payments.

1.6.3 Some Framework Public Bodies will have a requirement for temporary/interim workers to perform shift work, which may include both night and weekend work. The Framework Public Bodies will notify the Contractor of this as and when required. The temporary/interim worker *may* be entitled to a supplementary shift allowance. The Contractor must liaise with the Framework Public Bodies during Framework Agreement implementation to establish under what circumstances a temporary/interim worker may be entitled to receive a shift allowance. On all occasions, the Contractor must establish the appropriate shift allowance payable to a temporary/interim worker with the Framework Public Bodies prior to the commencement of any assignment. The Contractor will not be entitled to any increased rate of commission.

1.7 Duration

1.7.1 Generally assignments *may* range in duration from a single day to 23 months. However, assignments may be permitted for longer periods. In those instances, 47 months is the Framework recommended maximum period for a temporary/interim assignment and the combined length of continuous placements should not exceed this. Whilst SG HR will actively apply this principle in their Call-Off Contracts, some Framework Public Bodies may wish to apply their own policies in this regard and will make the Contractor aware of their policies and procedures at the Call-Off Contract stage. Any continuation beyond this period will be at the discretion of each Framework Public Body. However the Contractor will still be expected to report on each

temporary/interim assignment duration as part of the comprehensive requirement for monthly/quarterly management information. This will include the monitoring of continuous placements, where an individual has worked for a body allied to the Framework Public Bodies without a sufficient break in service. An allied body might be, for example, another part of the Civil Service if the Framework Public Body is a Civil Service body. After a period of separate assignments amounting to 47 months, the worker must take a 26 week break before undertaking any new assignment with the Scottish Government. Whilst SG HR will actively apply this principle, some Framework Public Bodies may wish to apply their own policies in this regard and will make the Contractor aware of their policies and procedures at the Call-Off Contract stage.

1.7.2 Where an extension to the original Contract period is considered likely, this must be included from the outset as an option in the original Call-Off Contract. Extension periods should not exceed the original Contract duration. Individual Contracts cannot be extended where an optional extension is not included in the original Contract from the outset.

1.7.3 As part of the original Call-Off Contract, hiring line managers must include a notice period (notice to terminate an individual Contract) to which both parties will adhere (reciprocal). Generally notice periods should be not less than 5 working days in duration. In exceptional circumstances, notice periods may be less than 5 working days (e.g. where operational requirements dictate, or where performance, disciplinary or other issues arise and early termination may be required) but should be agreed between the Framework Public Body and the Contractor.

1.7.4 Contractors and Framework Public Bodies must ensure that where possible there is a sharing/transfer of knowledge by the temporary/interim worker throughout the period of the assignment. The Framework Public Body's hiring line manager must discuss and agree with the temporary/interim worker how this will be achieved for each assignment as appropriate.

1.8 Security

1.8.1 Due to the collaborative nature of this framework, different Framework Public Bodies require different security procedures to be carried out prior to an individual taking up any assignment. Additional costs, incurred as a result of carrying out the required security procedures, will not be borne by the Framework Public Bodies.

1.8.2 [Disclosure Scotland](#) is a service provided by Scottish Ministers to manage and operate the Disclosure service in Scotland as provided for in [Part V of the Police Act 1997](#). As a minimum requirement, all central government organisations and many other Scottish public bodies have a requirement for temporary/interim workers to have gone through Basic Disclosure **prior** to taking up assignment. Basic Disclosure provides a criminal convictions certificate showing details of unspent convictions under the Rehabilitation of Offenders Act 1974 or states that there are no such convictions. Where Basic Disclosure is required, The Framework Public Bodies must have sight of a valid original certificate **prior** to temporary/interim workers being allowed access to the Framework Public Bodies' premises. Disclosure certificates are valid for one year from the date of issue. Assignments commencing more than one year after the date of issue will require the temporary/interim applicant to repeat the relevant disclosure process.

1.8.3 Due to the sensitive nature of temporary/interim roles within some of the Framework Public Bodies, there may also be a requirement for temporary/interim workers to have Standard Disclosure. Standard Disclosure provides a criminal records certificate which displays records of both spent and unspent convictions. Although not all organisations will require Standard Disclosure, as an indication of volume, the main categories of occupations for which a Standard Disclosure may be required are:

- those involving regular contact with children and adults at risk;
- those involved in the administration of law;
- those applying for firearms, explosives and gaming licences;
- professional groups in health, pharmacy and law; or,
- senior managers in banking and financial services.

1.8.4 There may also be a limited requirement for Enhanced Disclosure or Protection of Vulnerable Groups (PVG) in some instances. In addition to the details provided in the Basic and Standard Disclosures, the Enhanced Disclosure provides an enhanced criminal records certificate which may contain non-conviction information which a Chief Officer or Chief Constable may choose to disclose if they believe it relevant to the position in question. Although the requirement for Enhanced Disclosure will be less frequent, as an indication of volume, these may be required for roles which involve the following:

- those who apply for work that regularly involves caring for, training, supervising or being in sole charge of children or adults at risk;
- applicants for various gaming and lottery licences;
- those seeking judicial appointment; or,
- Applicants for registration for child minding, day care and to act as foster parents or carers.

1.8.5 In addition to the Disclosure process, some of the Framework Public Bodies – in particular the Scottish Government – will require the Contractor to ensure that all **candidates** that are proposed to carry out work on the Framework Public Bodies' premises meet the Baseline Personnel Security Standard (BPSS). The BPSS comprises verification of the following 4 main elements:

- Identity
- Employment History (past 3 years)
- Nationality and Immigration Status
- Criminal Record ('unspent' convictions only – by means of the Basic Disclosure certificate)

1.8.6 Contractors wishing clarification of what is deemed as an acceptable form(s) of verification are referenced at [BPSS Guidance](#).

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/677553/HMG_Baseline_Personnel_Security_Standard.pdf

1.8.7 Where BPSS is required, all of the above checks **must have been completed prior** to temporary/interim workers being put forward for work with the Framework Public Bodies; however the Framework Public Bodies reserve the right to carry out additional and/or more in-depth checks where this is deemed necessary. The Contractor shall retain copies of the BPSS reports on file. The BPSS verification record and the appropriate Disclosure certificate shall be submitted to the Framework Public Bodies with the Contractor's recommendation. This recommendation should only be made once the Contractor is satisfied that the verification process has not identified any adverse information about the subject that would impact on their suitability for a position within the relevant Framework Public Body in accordance with the service provisions of this Framework Agreement.

1.8.8 All temporary/interim workers or sub-contract staff or other Contractor representatives used to provide the services, or who require entry to any of the premises to provide the services, shall be subject to the appropriate security checks by the Contractor (appropriate security checks as determined by the Framework Public Bodies). The Contractor shall ensure that appropriate checks for each individual are undertaken, and shall maintain a register of the same (including any re-verification of immigration when interim/permission expiry checks are required or periodic re-checking of individuals by the Contractor) which may be examined by the Framework Public Bodies.

1.8.9 Where BPSS is required, no temporary/interim workers (or any sub-contract staff) of the Contractor, or other representative, shall work within any of the premises or provide services to the Framework Public Bodies until the Contractor has obtained BPSS approval for such an individual.

1.8.10 The Authority reserves the right to audit the Contractor's processes in achieving BPSS and other security checks (as determined by the Framework Public Bodies) either remotely or via a site visit. The Contractor will be provided with **1 weeks'** notice of any such audit. Non-compliance to BPSS and other relevant security requirements, as detailed above, may result in the termination of the Framework Agreement.

1.8.11 This procedure is subject to any changes in the BPSS and other security checks (as determined by the Framework Public Bodies) throughout the duration of the Framework Agreement.

1.8.12 The Contractor will also be required to inform the Framework Public Bodies if any temporary/interim worker involved in delivering the services are charged with, or convicted of any offence during the period of their assignment, and, should it be necessary, arrange for the service to be provided by another temporary/interim worker.

1.8.13 Since the pre-employment vetting, security and nationality checks can take up to 3 weeks to complete, the Contractor **must** ensure the availability of a 'pool' of pre-cleared temporary/interim workers of sufficient size to meet the Authority's requirements. Although every effort will be made to give the Contractor notice of anticipated significant increases in expected demand, the number of temporary/interim workers available must be adequate to meet the reasonable demands of the Framework Public Bodies at any time.

1.8.14 The Contractor must liaise with the Framework Public Bodies, to establish and comply with any additional security procedures that require to be followed, in order that temporary/interim workers are able to access the Framework Public Bodies premises.

1.8.15 The Framework Public Bodies shall have the right to ask the Contractor to remove from its premises any temporary/interim workers they have supplied and will provide justification for any such request. The Contractor will maintain records of any temporary/interim workers they have supplied against which a Framework Public Bodies has raised a complaint, and ensure that those with active or unresolved complaints are not re-assigned to any position under this Framework Agreement, until the Framework Public Bodies is satisfied that the problem(s) or issues that gave rise to the original complaint have been addressed, and will not recur.

1.8.16 The Framework Public Bodies will notify their security department of any assignments that have been terminated by a line manager.

1.9 Data Protection & Information Security (where applicable)

1.9.1 The data that the Contractor will handle under this Framework Agreement will be classed as 'Official' or 'Official – Sensitive' and should be treated with care, taking into account relevant legislation, at all times. Further information on Government Security Classifications and Framework Agreements can be found at:

<https://www.gov.uk/government/publications/government-security-classifications>

1.9.2 The Contractor will ensure the confidentiality of the data stored and/or communicated as part of this Framework Agreement, including both electronic and paper-based data.

1.9.3 The Contractor will ensure procedures and processes are in place to ensure security of client data, enabling them to work with Framework Public Bodies with high Information Technology (IT) security requirements to deliver services, ensuring continuity and protection against cyber-attacks. This must include commercial grade full disk encryption for all data and secure e-mail for data in transit.

1.9.4 Contractors as a minimum must have:

- Processes in place ensuring security of client data including processes for assessing future risks;
- Acceptable Destruction policies and processes for deleting data;
- Procedures in place for Disaster Recovery Testing, including the dates, duration and frequency;
- Methods for the back-up of delivering services should an incident occur including manpower and access to equipment;
- Appropriate commercial licenses for software in place;

- Methods in place to mitigate against cyber-attack and crime using online technologies including processes relating to Boundary Firewalls and Internet Gateways, Secure Configuration, Access Control, Malware Protection and Patch Management

1.9.5 Information on the Scottish Government Cyber Resilience Strategy can be found by following this link: [A Cyber Resilience Strategy for Scotland](#)

1.9.6 For further information please see the UK Governments Cyber Essentials Scheme and consider the information included within the scheme. [Cyber Essentials Scheme](#).

1.9.7 The Contractor will employ effective administration and record control processes in order to underpin service delivery whilst also ensuring data is protected in compliance with the requirements of the Data Protection Laws.

1.9.8 The Contractor will ensure access to protectively marked information is correctly managed and safeguarded.

1.9.9 The Contractor will not transfer data being handled under this Framework Agreement outside the European Economic Area.

1.9.10 The Data Protection Register is a register of data controllers held by the ICO and can be found at <https://ico.org.uk>.

1.9.11 Some Framework Public Bodies are included under the Scottish Government entry in the Data Protection Register held by the ICO. Other Framework Public Bodies have their own entry in the Data Protection Register held by the ICO.

1.9.12 The Contractor will enter a Data Controller/Data Processor contract prior to handling any data from those Framework Public Bodies that are included under the Scottish Government entry in the Data Protection Register held by the ICO.

1.9.13 A template Data Controller/Data Processor Model Contract that the Contractor will enter with Framework Public Bodies that are part of the Information Commissioner's Office (ICO) Data Protection Register Entry is included at Schedule 9 of the Standard Terms of Supply.

1.9.14 Other Framework Public Bodies that are not included under the Scottish Government entry in the Data Protection Register held by the ICO may also choose to use the template Data Controller/Data Processor Model Contract adapt the template for their own purposes or use a different Data Controller/Data Processor contract specific to their organisation. In these circumstances, the Contractor will enter into the necessary Data Controller/Data Processor contract with that Framework Public.

1.9.15 The Framework Public Body will have sole discretion to determine the Data Controller/Data Processor contract that the Contractor will enter with that Framework Public Body in order to comply with the relevant legislation.

1.9.16 The Authority or Framework Public Body may conduct an audit and or a site visit of the Contractor's premises to allow validation and the environment used to store the data shared with them.

1.9.17 The Contractor and their staff and sub-contractors must comply with the security requirements notified by each Framework Public Body which may include signature of a non-disclosure agreement or other measures as required.

1.10 Business Continuity Plans

1.10.1 The Contractor will maintain business continuity plans which will be implemented in the event of disruption of services.

1.10.2 Contractor's business continuity plans will be shared with the Authority and Framework Public Bodies on request.

1.10.3 The Contractor will conduct a business continuity exercise with the Authority on an annual basis. This may be by workshop or meeting, or otherwise agreed format.

1.11 Incident Reporting

1.11.1 As soon as the Contractor becomes aware, it shall immediately report any incident affecting the delivery of the Service(s) to the Framework Public Body. The Contractor will undertake an immediate investigation and will provide feedback in writing on findings, including corrective actions required and trends observed, to the Framework Public Body within 24 hours of the incident being reported by telephone/e-mail.

1.11.2 Serious incidents can be categorised as but not limited to:

- Any breach of security which may affect the security of data supplied by the Framework Public Body to the Contractor;
- Failure to deliver the required Services due to any type of service disruption

This list is indicative only and the Framework Public Body may provide for further categories of serious incidents at the Call-Off level.

1.11.3 The Contractor shall, in the event of a serious incident, provide from within Contractor's senior management, a single point of contact person within 1 hour of notification.

1.11.4 It shall be the responsibility of the contact person to pursue the investigation and mitigation of the incident to the satisfaction of the Framework Public Body and shall be required to provide progress updates to the Framework Public Body on request.

1.11.5 In addition to the above notification requirements, the Contractor shall have in place an effective and efficient incident handling procedure for dealing with security breaches in the provision of Service(s) to the Framework Public Body and these should be agreed by the Framework Public Body and Contractor in advance. As a minimum it must include but not be limited to:

- Early identification of any loss of data;
- Early notification to Framework Public Body on any security breaches;
- Set procedures in place to conduct thorough premises searches;
- Ability to provide immediate feedback on investigations to Framework Public Body contacts that may be requested at any time from the notification;
- Internal escalation procedures in place to notify senior Contract Managers and Security Managers;
- Ability within workforce planning to provide on-site management and assistance to ascertain the causes of the security breach and implement any immediate remedial actions in mitigation;
- Final reporting writing procedures in agreement with the Framework Public Body;
- Full co-operation with any requests for written reports and information pertaining to security incidents that may be requested by the Information Commissioner

1.11.6 The Contractor will ensure procedures and processes are in place to ensure the confidentiality of client data and enable working with bodies with high Information Technology (IT) security requirements to deliver services.

1.12 Working on the Framework Public Bodies' Premises and Use of Equipment

1.12.1 It is the responsibility of the Contractor to ensure that the temporary/interim worker and their line manager are aware of the requirements that have been pre-agreed between the Framework Public Body and the Contractor. On arrival at the Framework Public Bodies' premises on the first day of an assignment, temporary/interim workers and their line manager must be aware of the role of the line manager and that of the Contractor in any performance-related or disciplinary matters. The document must make it clear that any performance or disciplinary issues are to be raised with the Contractor who will then deal with the issue in a timely manner. Temporary/interim workers and their line manager must be aware of the contact details of the Contractor's Account Manager.

1.12.2 Accommodation, office furniture and equipment and consumables required for each individual assignment will be provided free of charge by the Framework Public Bodies, subject to the provision of office furniture and equipment etc. required as part of a reasonable adjustment for health and safety reasons (see 1.12.7). The Contractor shall be responsible for any loss or damage to the Framework Public Bodies' property arising from any misuse or lack of care by the Contractor's staff.

1.12.3 The Contractor will not be charged for the cost of the accommodation, fuel, utilities or other services. However, the Contractor will be expected to comply with the Framework Public Bodies' policies in respect of occupation and use of the premises and to be cost and environmentally conscious.

1.12.4 The Contractor's staff (including temporary/interim workers), when on the Framework Public Bodies' premises, shall comply with such rules, regulations and requirements (including those relating to security arrangements) as may be in force for the conduct of personnel at the premises. The Framework Public Bodies may be able to provide the Contractor with a copy of its staff handbook on request, should the Contractor wish to see the terms and conditions the Framework Public Bodies apply to their own staff. Where a staff handbook is not available the Contractor should raise any queries relating to rules, regulations and requirements with the Framework Public Bodies' Contract Manager.

1.12.5 The Contractor shall be responsible for the observance by his staff of all relevant safety precautions including all precautions required to be taken by or under any Act of Parliament including any regulations or bye-laws of any local or other authority. The Contractor shall co-operate fully with the Framework Public Bodies to ensure the proper discharge of these duties.

1.12.6 Accidents involving the temporary/interim workers, which ordinarily require to be reported in accordance with the Health and Safety at Work Act 1974, shall be reported immediately to the nominated individual(s) within each Framework Public Body. The Contractor will establish each Framework Public Bodies' nominated individual(s) prior to providing any temporary/interim workers to the Framework Public Bodies.

1.12.7 The Contractor will carry out a pre-employment health questionnaire check with all prospective candidates and initial and/or further occupational health assessments where required, and make the Framework Public Bodies aware of any reasonable adjustments that are required to ensure the health, safety and convenience of temporary/interim workers. Where reasonable adjustments are required, costs will be met by the Framework Public Bodies, only where the adjustment is retained by the Framework Public Bodies at the end of the assignment i.e. seating, desks, desktop equipment. Where the result of the adjustment would be retained by the temporary/interim worker or Contractor at the end of the assignment, the Framework Public Bodies will not bear these costs. Whilst the Framework Public Bodies will make every effort to meet the requirement of reasonable adjustments, it may not be possible in all instances to put in place adjustments within the timescale available before temporary/interim workers are required to start. The Framework Public Bodies will also not be responsible for any cost associated with transport between the workers home and the normal place of work.

1.13 Management Information Requirements	See SCHEDULE 4.
1.14 Complaints	See SCHEDULE 4.
1.15 Service Levels & Framework Management	See SCHEDULE 4.
1.16 Supplier Relationship Management	See SCHEDULE 4.
1.17 Pricing, Invoicing & Order Placement Procedures	See SCHEDULE 4.

1.18 Continuous Improvement

1.18.1 The Contractor will implement a system that delivers continuous improvement over the Framework Agreement period. By continuous improvement it is meant that improvements are to be delivered for one or more of the following outputs on an on-going basis:

- reduction in whole life costs to the Framework Public Bodies;
- quality (reliability, delivery, etc.);
- user satisfaction;
- specified contract service levels; and,
- the facilitation or promotion of best practice across the Framework Public Bodies.

Continuous improvement will be monitored by the Strategic Contract Manager in the 6 monthly performance reviews with the Contractor.

1.19 Employment by the Authority

1.19.1 The Authority does not view this Framework Agreement as a formal testing ground for potential staff recruitment/employment. The Contractor must not give temporary/interim workers or candidates any expectation that a temporary/interim assignment through this Framework Agreement will lead to recruitment/employment with a Framework Public Body. However, it is recognised that the Contractor's temporary/interim workers or candidates may seek employment with a Framework Public Body.

1.19.2 The Conduct of Employment Agencies and Employment Businesses Regulations 2003 govern when a transfer fee, also known as a 'temp to perm' fee can be charged. Under Regulation 10 of these Regulations, a 'temp to perm' fee can only be charged where the temporary worker takes up a permanent job with the client (e.g. Framework Public Body) within either 14 weeks from the start of the assignment or within eight weeks after the end of the assignment, whichever is later. This means the client (e.g. Framework Public Body) may take on a temporary worker any time after eight weeks of the end of the assignment without paying a 'temp to perm' fee.

1.19.3 It is understood that the Conduct of Employment Agencies and Employment Businesses Regulations 2003 may not apply to all agency staff and understand that it is reasonable to expect a transfer fee in certain circumstances. The same criteria will therefore apply to Interim IT and Interim Professionals.

1.19.4 The contract between the Contractor and the client, (e.g. Framework Public Body) must include all transfer fees and conditions and be in accordance with the Pricing Schedule at Schedule 2. In summary, the Contractor can only charge a 'temp to perm' fee if all of the following apply:

- the contract with the client (e.g. Framework Public Body) gives them the option to extend the workers assignment;
- the client (e.g. Framework Public Body) doesn't take the option to extend the assignment;
- the client (e.g. Framework Public Body) gives the worker a permanent job less than 8 weeks after the end of their initial assignment – or less than 14 weeks after it started if that is later.

If the temporary worker has had more than one assignment with the client (e.g. Framework Public Body) and there were more than 42 days between assignments, the later assignment is treated as if it is the first one.

Please see links below for further information.

Formula for calculating 'temp to perm' fees

1.19.5 The formula for calculating 'temp to perm' fees will be agreed for the Framework duration (and any Call-Off Contract awarded under this Framework Agreement), as part of the Framework Agreement terms and conditions. See the Pricing Schedule at Schedule 2.

1.20 Fair Work

1.20.1 The Public Sector in Scotland is committed to the delivery of high quality public services, and recognises that this is critically dependent on a workforce that is well rewarded, well-motivated, well-led, has access to appropriate opportunities for training and skills development, are diverse and is engaged in decision making.

1.20.2 These factors are also important for workforce recruitment and retention, and thus continuity of service. Public Bodies in Scotland are adopting fair work practices, which include:

- a fair and equal pay policy that includes a commitment to supporting the Living Wage, including, for example being a Living Wage Accredited Employer;
- clear managerial responsibility to nurture talent and help individuals fulfil their potential, including for example, a strong commitment to Modern Apprenticeships and the development of Scotland's young workforce;
- promoting equality of opportunity and developing a workforce which reflects the population of Scotland in terms of characteristics such as age, gender, religion or belief, race, sexual orientation and disability;
- support for learning and development; stability of employment and hours of work, and avoiding exploitative employment practices, including for example no inappropriate use of zero hours contracts;
- flexible working (including for example practices such as flexi-time and career breaks) and support for family friendly working and wider work life balance;
- support progressive workforce engagement, for example Trade Union recognition and representation where possible, otherwise alternative arrangements to give staff an effective voice.

1.20.3 In order to ensure the highest standards of service quality in this Framework we expect Contractors to take a similarly positive approach to fair work practices as part of a fair and equitable employment and reward package.

1.21 Sustainability & the Environment

1.21.1 This Framework Agreement supports the Scottish Government's National Performance Framework, and the National Outcomes which articulate the Government's Purpose 'To focus Government and public services on creating a more successful country, with opportunities for all of Scotland to flourish, through increasing sustainable economic growth'. This Framework supports the following National Outcomes, and Contractors are expected to support the Authority's aim to achieve these.

- We live in a Scotland that is the most attractive place for doing business in Europe.
- We realise our full economic potential with more and better employment opportunities for our people.
- We are better educated, more skilled and more successful, renowned for our research and innovation.
- Our young people are successful learners, confident individuals, effective contributors and responsible citizens.
- We have tackled the significant inequalities in Scottish society
- We reduce the local and global environmental impact of our consumption and production.

<http://www.gov.scot/About/Performance/scotPerforms/outcome>

1.21.2 The Contractor will be required, where practical, to:

- minimise the environmental impacts of products and associated packaging;
- minimise the environmental impact of the delivery of products;
- contribute to a more circular economy;
- provide relevant opportunities for community benefits;
- provide opportunities for the involvement of SMEs and/or third sector organisations in delivery of this Framework;
- Provide assurance regarding workforce matters.

1.21.3 The delivery of this service supports the Scottish Government's overall Sustainable Procurement Policy. This may include schemes such as:

- Electronic invoicing;
- Video conferencing for meetings;
- Green travel policies;
- Providing training opportunities and support to achieve qualifications;
- Supporting local communities e.g. sponsorship of local clubs etc.;
- Using social enterprises to support delivery of services.

1.21.4 Further details on Scottish Government's Sustainable Procurement Policy are available at:

<http://www.gov.scot/Publications/2016/03/8410/3>

and

<https://www.procurementjourney.scot/route-3/route-3-develop-strategy-profiling-commodity-sustainable-procurement>

1.21.5 In order to ensure the highest standards of sustainability in this Framework Agreement, we expect the Contractor to take a similarly positive approach to sustainability-related matters.

1.22 Added Value

1.22.1 The Contractor shall work with the Framework Public Bodies to implement a strategic approach to the management of costs within their own organisation.

1.22.2 The Contractor shall identify areas open to improvement, report and regularly update the Framework Public Bodies on all areas.

1.23 eCommerce (where applicable)

1.23.1 The Scottish Government's eCommerce Shared Service brings together all the steps involved in doing business with the public sector in Scotland. It promotes improved capability across public procurement in Scotland, enables business to be conducted more simply, consistently and effectively and it plays a key strategic role in delivering and sustaining procurement benefits and best practices. The use of technology enables procurement processes to be streamlined and standardised, which supports the delivery of more effective contracts.

1.23.2 The eCommerce Shared Service delivers Purchase-to-Pay (P2P) capability through the following solutions:

- PECOS P2P
- eInvoicing

1.23.3 Contractors should be aware that not all Scottish public sector bodies use these systems and that there is a variety of different P2P solutions in place. However, for the purpose of this ITT,

Contractors will only be required to demonstrate their ability to support the solutions mentioned above.

1.23.4 Further information regarding the eCommerce Shared Service and in particular the solutions mentioned above can be found at:

<http://www.gov.scot/Topics/Government/Procurement/eCommerce>

1.23.5 Purchase orders will be raised as a non-catalogue or free text order.

1.23.6 To ensure that PO's provide an accurate description of the requirement and contain accurate pricing the following information will have to be made available to end-users when creating non-catalogue PO:

- The description of the product or service being requested;
- The Item number/code of the product or service being requested;
- The price of the products or services being requested;
- How changes to the order will be accommodated.

1.23.7 Purchase Order (PO) Transmission Options

1.23.7.1 cXML

1.23.7.1.1 PECOS can issue a cXML PO directly to a Contractor's back office system. This allows the order to be automatically captured by the Contractor's system, thereby removing the need to manually enter the order and reducing potential errors.

1.23.7.1.2 There is a one-off charge to configure cXML ordering from PECOS but this will enable multiple PECOS user organisations to use the connection.

1.23.7.1.3 Contractors should note that other P2P solutions may also support cXML ordering and any costs associated will be communicated to the successful Contractor by the relevant Scottish public sector body.

1.23.7.2 PDF email

1.23.7.2.1 PECOS will send the Contractor an email to a predetermined address with a PDF attachment.

1.23.7.3 Invoice Options

1.23.7.3.1 There are a number of different payment options available but Contractors should note that for this Framework/Contract, eInvoicing is the preferred option. This will ensure compliance with the EU eInvoicing Directive which comes into force on 27 November 2018.

1.23.7.4 Invoicing

1.23.7.4.1 The Scottish Government is enabling eInvoicing capability across the Scottish public sector through PECOS P2P. To support this, Contractors will be required to submit their invoices and credit notes in a machine readable data format such as PDF or cXML.

1.23.7.4.2 Submitted invoices must be HMRC compliant and must include the following data:

- Purchase Order Number;
- Product or service item number;
- Line item detail such as price, unit of measure and description;
- The invoice period;
- Seller information;
- Buyer information;
- Payee information;
- Seller's tax representative information;
- Delivery details;
- Payment instructions;
- Allowance or charge information;
- Invoice totals;
- VAT breakdown

1.23.7.4.3 It is critical that the invoice issued by the Contractor matches the information contained within the PO to ensure that the invoice data above is correctly mapped to the invoice processing environment.

1.23.7.4.4 There are no costs to Contractors to issue an invoice or credit note to the Scottish Government's eInvoicing solution.

1.23.7.4.5 Contractors should note other P2P/finance solutions may also accept eInvoices and any costs associated will be communicated to the successful Contractor by the relevant Scottish public sector body.

1.23.7.4.6 If Contractors are unable to support eInvoicing, the following payment options should be considered:

Self-Billing / Electronic Receipt Settlement - Most P2P systems support the ability for the Goods Received Note (GRN) to act as the instruction to pay the Contractor which removes the need for the Contractor to issue an invoice.

Embedded Government Procurement Card (GPC) - Most P2P systems enable an Electronic Procurement Card (ePC) to be embedded against a Contractor to allow all orders to be charged against it. There is a Merchant Fee that will be charged against each order raised. Each Scottish public sector body will provide information to the successful Contractor in regards to the fee that will be incurred. The fee will vary dependant on the Public Sector organisations agreement with the card provider. This payment method is optional and not mandated for all Contractors.

Consolidated Electronic Invoice - Contractor submits a single invoice covering multiple purchase orders in an electronic file for an agreed period

of time. The format of the electronic file will have to be agreed between the Contractor and the relevant Scottish Public Sector Body.

Paper Invoice - Contractor issues a paper invoice for each order fulfilled

1.24 Framework Transition/Mobilisation

1.24.1 The Contractor will develop and agree with the Authority a Termination & Exit Plan for this Framework Agreement not later than six months after the commencement date of this Framework Agreement.

1.24.2 The Termination & Exit Plan will ensure smooth transition of work, documents and information to the Authority, or any subsequent third party nominated by the Authority at the Framework Agreement expiry date, date of termination or during the mobilisation of any future Contract or Framework Agreement for same or similar services.

1.24.3 The Exit Plan will provide details of all procedures and activities necessary for a seamless transition of responsibility from the Contractor and from this Framework Agreement.

1.24.4 The Exit Plan shall include a full review of the status of the Contract and shall provide practical guidance and steps to be taken by both the Authority and the Contractor to ensure that costs and disruption to both the Authority and Framework Public Bodies are minimised.

1.24.5 The Contractor shall ensure that any material provided by, or paid for by the Authority, is returned within 14 calendar days of the Framework Agreement expiry date or date of termination.

1.24.6 The Contractor and the Authority shall act in accordance with the Exit Plan in the event of expiry, or early termination of this Framework Agreement.

1.24.7 The Authority's role is transferred to any Framework Public Body that places an order prior to the Framework Agreement expiry date or date of termination for services to be delivered under this Framework Agreement at a date after the Framework Agreement expiry date or date of termination at the Framework Agreement expiry date or date of termination.

1.24.8 The Contractor will continue to submit spend and performance information to the Authority until all Call-Off Contracts for services to be delivered under this Framework Agreement have been fulfilled.

1.25 Assignment/Roles and Specific Requirements

1.25.1 The following assignments/roles are based on the duties performed by permanent staff and that where temporary/interim workers are required, the specific duties of individual assignments may vary. A permanent member of staff will be on hand to give advice and guidance where necessary.

1.25.2 The Authority recognises the variety of purpose of all Framework Public Bodies, and accordingly requires that the Contractor works with the nominated individual within each Framework Public Body to clearly define requirements on a case-by-case basis. While we consider that the majority of requirements for temporary/interim workers may fall under one of the assignment/role types listed below, there may be occasions where an assignment does not fit under one of the titles listed. In this instance, the Contractor must work with the Framework Public Bodies to agree a defined assignment/role.

1.25.3 Example Assignment /Role Types:

This list is based on existing framework management information for the last 12 months and provides an indication of the most frequently requested assignment/role types. This **is not** an exhaustive list of all assignments/roles requested in the last 12 months and **is not** an indication or guarantee of the assignment/role types required under this Framework Agreement. Requirements will change over the life of this Framework Agreement and the Contractor must work with the

Strategic Contract Manager to ensure the Framework Agreement meets the evolving needs of the Framework Public Bodies.

All commission rates are fixed for the duration of the Framework Agreement and for the length of any individual Call-Off Contract under the Framework.

Assignment/Role Types

Many different categories of interim assignments/roles will be required. This pricing schedule contains examples of the types of assignments/roles that *may* be required. These examples will be used as grades to which similar or equivalent assignments/roles will be matched by the Framework Public Body in consultation with the Contractor.

Contractors must understand that the assignments/roles and volumes will vary depending on the requirements of the individual Framework Public Body.

Daily Pay Rates

Daily pay rates are not included as part of this Pricing Schedule. However, daily pay rates must be discussed and agreed with the Framework Public Body for each individual assignment/role, taking into account all current employment legislation and in compliance where appropriate, with the Agency Workers Regulations 2010. Where overtime rates are paid as standard in an industry and the Framework Public Body agrees to pay overtime rates, the Contractor will be required to pay the overtime rate in line with buying organisation's policies for permanent workers.

Living Wage

The Scottish Government is committed to supporting the Scottish Living Wage (currently set at £8.75 per hour) in its public sector pay policy for the duration of this parliament [2016-21]. The Agency Workers Regulations 2010 require equal pay for agency workers doing the same or similar work to that of permanent employees. Where public sector pay policy applies this means agency workers will be receiving a rate of pay at or above the Scottish Living Wage. Framework Public Bodies that do not fall within the public sector pay policy remit will be required to consider their own position with regards to payment of the Scottish Living Wage.

Transfer or Temp to Permanent Fees

The Authority does not view this Framework Agreement as a formal testing ground for potential staff employment. The Contractor must not give interim workers or candidates any expectation that an interim assignment through this Framework Agreement will lead to employment with a Framework Public Body. However, it is recognised that the Contractor's interim workers or candidates may seek employment with a Framework Public Body.

The Conduct of Employment Agencies and Employment Businesses Regulations 2003 govern when a transfer fee, also known as a 'temp to perm' fee can be charged. See paragraph 19. of Schedule 1 - Statement of Requirements for more details.

It is understood that the Conduct of Employment Agencies and Employment Businesses Regulations 2003 may not apply to all agency staff and that it is reasonable to expect a transfer fee in certain circumstances. The same criteria will therefore apply to Interim Professional assignments under this Framework.

The Contractor can only charge a 'temp to perm' fee if all of the following apply:

- the contract with the client (e.g. Framework Public Body) gives them the option to extend the worker's assignment;
- the client (e.g. Framework Public Body) doesn't take the option to extend the assignment;
- the client (e.g. Framework Public Body) gives the worker a permanent job less than 8 weeks after the end of their initial assignment – or less than 14 weeks after it started if that is later.

If the interim worker has had more than one assignment with the client (e.g. Framework Public Body) and there were more than 42 days between assignments, the later assignment is treated as if it is the first one.

Where applicable, the Call-Off Contract between the Contractor and the Framework Public Body must include all transfer fees and conditions and be in accordance with the formula for charging 'Temp to Perm' fees in this Pricing Schedule – see Table below.

ONE OFF PERCENTAGE FEE - % BASED ON FIRST YEAR'S BASIC ANNUAL SALARY FOR THE ROLE	REDACTED
---	----------

The formula is fixed for the duration of the Framework Agreement and all Call-Off Contracts awarded under this Framework Agreement.

This and the following 8 pages comprise Schedule 3 to the Framework Agreement between the Scottish Ministers and Harvey Nash Scotland (trading division of Harvey Nash Ltd)

SCHEDULE 3 – AWARD PROCEDURES

3.1 Direct Award Ranked Solution or Mini Competition

3.1.1 Call-off Contracts may be awarded under this Framework in one of two ways:

- by the direct award ranked solution, or
- by mini-competition (inviting all Framework Contractors).

3.1.2 Each Framework Public Body will decide on a case by case basis for each individual assignment, which award method (direct award ranked solution or mini competition), is likely to offer best overall value for money and achieve the desired result in terms of assignment fulfilment.

Direct Award Ranked Solution

3.1.3 Where the Framework Public Body's requirements are met in full by the terms set out in the Framework Agreement, and the direct award ranked solution is deemed most suitable, the Framework Public Body will go to the 1st ranked Framework Contractor in the first instance. If, for any reason, the 1st ranked Framework Contractor cannot meet the requirements at that time, the Framework Public Body will go to the 2nd ranked Framework Contractor, and so on. The following process should be followed:

3.1.3.1 The Framework Public Body shall complete Part A of the Order Form and send it to the 1st ranked Framework Contractor.

3.1.3.2 The Framework Public Body shall ensure that the date and time for the receipt of a response from the 1st ranked Framework Contractor takes into account factors such as the skill set required of the temporary worker and the time needed to send in a response.

3.1.3.3 If the 1st ranked Framework Contractor is able to supply the Services, they shall complete Part B of the Order Form and send it to the Framework Public Body on or before the last date for the receipt of the response. Framework Contractors who are unable to supply the Services being sought, must inform the Framework Public Body and provide the reasons as to their inability to supply.

3.1.3.4 On or after the last date for the receipt of the response, the Framework Public Body shall evaluate the response submitted by the 1st ranked Framework Contractor.

3.1.3.5 If only one CV is requested by the Framework Public Body, the Framework Public Body shall evaluate the proposal/CV submitted against the assignment skills, qualifications and/or requirements as set out in Part A of the Order Form. If the proposal/CV meets the requirements of the assignment, the Framework Public Body can proceed to enter into a Call-Off Contract with the 1st ranked Framework Contractor. Where the proposal/CV does not meet the assignment requirements, the Framework Public body may request additional CVs from the 1st ranked Framework Contractor or move to the 2nd ranked Framework Contractor, where the 1st ranked Framework Contractor is unable to provide additional CVs to meet requirements.

3.1.3.6 Where more than one CV is requested by the Framework Public from the 1st ranked Framework Contractor, the award criteria to be used must be made clear to the 1st ranked Framework Contractor in Part A of the Order Form and prior to receipt of the proposal/CV (e.g. details of the price/quality ratio to be used and how the CVs will be evaluated – see the process as described in paragraph 5.1.5.5 below).

3.1.3.7 As part of the evaluation process, the Framework Public Body must also provide timely, constructive feedback to each Framework Contractor for each unsuccessful interim candidate put forward for each assignment.

3.1.3.8 If the 1st ranked Framework Contractor is unable to supply the Services, the process as described above should be followed with the 2nd ranked Framework Contractor and so on.

Mini Competition Process (to include all Framework Contractors)

3.1.4 Where not all of the terms are set out in the Framework Agreement, or for example where a skills/qualifications shortage for a particular assignment is considered likely, where skills/qualifications are specialist or niche, or where it is considered that competition between Framework Contractors may achieve best overall value for money, Framework Public Bodies may run a mini-competition amongst all Framework Contractors. Under a mini-competition process, the Call-Off Contract will be placed with the Framework Contractor who has submitted the most economically advantageous tender in accordance with the mini-competition award criteria. The award criteria to be used in the mini competition must be made clear to all Framework Contractors prior to the mini-competition (e.g. details of the price/quality ratio to be used and how the proposals/CVs will be evaluated).

3.1.5 When a mini competition amongst all of the Framework Contractors is undertaken, a Price/Quality Ratio must be set, e.g. Price 40%, Quality 60% (ratio to be decided by the Framework Public Body). The following rules will then apply to the competition between the Framework Contractors:

3.1.5.1 The Framework Public Body shall complete Part A of the Order Form and send it to all Framework Contractors.

3.1.5.2 The Framework Public Body shall ensure that the date and time for the receipt of responses from the Framework Contractors takes into account factors such as the skill set required of the temporary worker and the time needed to send in responses.

3.1.5.3 Each Framework Contractor able to supply the Services shall complete Part B of the Order Form and send it to the Framework Public Body on or before the last date for the receipt of responses. Framework Contractors who are unable to supply the Services being sought, must inform the Framework Public Body in a timely manner and provide the reasons as to their inability to supply.

3.1.5.4 On or after the last date for the receipt of responses, the Framework Public Body shall evaluate all responses submitted by the Framework Contractors and, by application of the evaluation criteria and the weightings specified in Part A of the Order Form, select a single Framework Contractor to supply the Services.

3.1.5.5 Analysis of proposals/CVs must follow the Price/Quality Ratio chosen and specific evaluation criteria detailed below:

- Quality - match with essential quality requirements (e.g. key skills, competencies, experience, relevant qualifications etc.) and any desirable qualities. (Weighting XX%)

- Price - proposed charge rate, to include a full breakdown (rate per hour/day, incl commission, excl. VAT,) (Weighting XX%)

The following criteria should be used to justify the scores awarded:

0 = Unacceptable. Candidate in no way meets requirements.

1 = Marginal. Candidate partially meets requirements.

2 = Acceptable. Candidate meets requirements.

3 = Exceeds. Candidate exceeds requirements.

4 = Exceptional. Candidate is exceptional and likely to add value.

3.1.5.6 The evaluation criteria allow for flexibility regarding the composition of percentage weightings allocated against the criteria shown above. The mini competition should be conducted on the basis of the criteria listed above and on the same, or, if necessary, more precisely formulated terms. Where a Framework Public Body wishes to introduce additional terms for evaluation, full details must be provided in the invitation document to Framework Contractors. The results of the Price/Quality ratio will reveal who has offered the most economically advantageous tender i.e. scoring the highest mark.

3.1.5.7 If required and as set out in Part A of the Order Form, the Framework Public Body may require to meet with proposed temporary workers. (NOTE: This is not a recruitment exercise and any meeting should not constitute a formal interview or incorporate any kind of test/assessment process. This is a contract for services with the Framework Contractor). Subject to the Framework Public Body notifying the successful Framework Contractor that their response has been accepted, the Service Contract shall be formed on the Commencement Date set out in the formal Purchase Order Form. The Framework Public Body shall give Notice of the name of the successful Framework Contractor to all other Framework Contractors in respect of whom a response was received.

3.1.5.8 The Framework Public Body shall at all times treat Framework Contractors equally and without discrimination and act in a transparent and proportionate manner. As part of the mini competition process, the Framework Public Body must also provide timely, constructive feedback to all Framework Contractors for each unsuccessful interim candidate put forward for each assignment.

3.1.6 Prior to using this Framework, Framework Public Bodies must contact the Framework Contractor contacts listed and arrange a meeting to discuss their individual organisational requirements prior to the first Call-Off Contract being placed. At these initial meetings Framework Public Bodies should advise the Framework Contractors of the following requirements for their own organisation:

- Typical Assignments/Roles;
- Timeframes of temporary staff requirements;
- HR policies, (including AWRs and living wage etc.);
- Security and Background check and Disclosure levels required;
- List of individuals who can place orders;
- Ordering procedures;
- Payroll and Invoicing procedures; and
- Management information required (type and frequency);
- Any other requirements, specific to their particular organisation.

This list is not exhaustive.

3.1.7 Framework Public Bodies and Framework Contractors should agree the following:

- Start date from when users will start placing Call-Off Contracts;
- Details of Account Manager within the Framework Contractor and the main contact within the Framework Public Body organisation; and
- Escalation procedures for both parties.

This list is not exhaustive.

3.2 Placing a formal Purchase Order (following the direct award ranked solution or mini competition process)

3.2.1 The Framework Public Body shall issue a formal Purchase Order by electronic e-mail or electronic tender/order system (e.g. Public Contracts Scotland) to the Framework Contractor which:

3.2.1.1 states/details the Service requirements, including the Call-Off Contract value/prices;

3.2.1.2 includes details of the duration of the Call-Off Contract (Contract period) and any potential option to extend the Call-Off Contract (where an extension is considered likely);

3.2.1.3 includes the agreed notice period for termination of the Call-Off Contract;

3.2.1.4 incorporates or references the Framework Agreement Terms and Conditions, including Schedule 5 - Standard Terms of Supply (i.e. terms and conditions for the Call-Off Contract under this Framework Agreement).

3.2.1.5 incorporates any other Contract specific requirements.

3.2.2 The format of any such Purchase Order may vary between Framework Public Bodies. Framework Public Bodies may issue a formal Purchase Order through an electronic tender/order system or may use their own order templates.

3.2.3 A Call-Off Contract must be awarded prior to the expiry of the Framework Agreement. The period of a Call-Off Contract may continue notwithstanding that the Framework Agreement has expired or been terminated. However, Call-Off Contracts cannot be awarded after the expiry of the Framework Agreement.

Supplier Relationship Management

4.15 Supplier Relationship Management (SRM) is a two-way process to continually improve the performance of both the buying organisation and the supply organisation and hence be mutually beneficial. It is not the same as, or intended to replace contract management. Supplier Relationship Management meetings will be held as is considered necessary. It is envisaged that this will be on an annual basis.

4.16 The Authority will chair an introductory Supplier Relationship Management meeting shortly after this Framework Agreement is awarded and representatives from the Contractor Senior Management Team will attend. This meeting will introduce the Contractor to the Authority's vision and definition of Supplier Relationship Management and a Supplier Relationship Management Strategy will be agreed. Further Supplier Relationship Management meetings will be chaired by the Authority and the Contractor's Senior Manager will attend. The Authority may choose to invite key customers to these meetings.

4.17 The Authority will gather the outputs from contract management to review under the five Supplier Relationship Management areas detailed in the table below.

Ref	Area	Description
1.	Relationship Management	Developing and managing relationships to support the delivery Supplier Relationship Management
2.	Performance & Risk Management	Developing, supporting and managing performance and risk of key supplier/s and the supply chain for continuous improvements
3.	Strategic Value Management	Communication, alignment and delivery of objectives that are strategic to the Authority and Collaborative Partners
4.	Capability & Efficiencies Management	Understanding the Contractor capability and seeking internal and external efficiencies

		through the streamlining of people, processes and/or systems
5.	Financial Value & Demand Management	Pricing data analysis, and cost segmentation (e.g. open book costing) and ensuring specifications represent what is “needed” rather than what is “wished for”

4.18 Outputs from Supplier Relationship Management will include minutes of discussion points and actions for the way forward to deliver continuous improvement.

Pricing/Invoicing/Order Placement Procedures

4.19 Hourly or daily pay rates must be discussed and agreed with the Framework Public Body for each individual assignment, taking into account all current employment legislation and in compliance where appropriate, with the Agency Workers Regulations 2010, IR35 legislation etc. At Call-Off Contract stage, a full breakdown of the pay rate must be provided, including where appropriate Tax, National Insurance, Working Time Regulations and any other pay elements which make up the pay rate charged. Travel & Subsistence costs must not be included in the pay rate or overall charge rate. See Schedule 1 - Statement of Requirements for details on Travel & Subsistence where this is applicable. Where overtime rates are paid as standard in an industry and the Client agrees to pay overtime rates, suppliers will be required to pay the overtime rate in line with buying organisation's policies for permanent workers. Commission rates must be applied in accordance with the agreed commission rates for the Framework Agreement. Payment will be made for days on which the Contractor's Temporary Staff work for the Framework Public Bodies only.

4.20 The Contractor must have the ability to present invoices **either weekly or monthly in arrears** as per the requirement of each Framework Public Bodies. At the commencement of the Agreement, the Contractor will liaise with each Framework Public Bodies' Contract Manager to ascertain any specific requirements of their organisation. This may include, but is not limited to consolidated invoicing or invoicing by cost centre. Invoices must clearly identify the cost centre or purchase order number – where applicable – and show the name(s) of staff provided, days or hours charged as applicable, the rate(s) charged and the name of the individual that signed-off or authorised the individual's timesheet. The Framework Public Bodies shall not be responsible for any delay in payment of the invoice where the invoice does not contain the agreed information required by the Framework Public Bodies.

4.21 The Scottish public sector is implementing e-commerce solutions. Please refer to paragraph 23. eCommerce, of the Statement of Requirements at Schedule 1.

4.22 The Contractor is required to work with Framework Public Bodies and the Authority's Strategic Contract Manager in the promotion of process efficiencies. These could include but are not limited to: online ordering; electronic or web-based timesheets; electronic consolidated invoices; and other innovations suggested by the Contractor. However due to the nature of this collaborative framework, the Framework Public Bodies will be at different stages of automation. Accordingly, the Contractor should still be able to provide 'traditional' forms of communication, such as, order via telephone and facsimile, paper timesheets and invoices.
