Estimated number of staff in attendance in local authority schools, Scotland

For any LAs that were unable to submit their latest information on time, or for other reasons (e.g. due to local holidays/in-service days), then their previously submitted figures have been carried forward in order to produce an estimated total number of staff in attendance for Scotland.

As such, week on week comparisons should be made with some caution as there will be some variation in the number of weeks between a local authority's latest provided figures and their previously submitted figures.

The latest estimated total number of staff in attendance (i.e. as at 26/01/21) has no local authority for which previously supplied figures have been carried forward.
